

EDUCATION

## DATASHEET

# LOGITECH SCRIBE

Effortlessly share whiteboards into video classrooms with Logitech Scribe, an AI-powered whiteboard camera for Microsoft Teams®, Zoom™, and other leading video conferencing services.

### **WHITEBOARD CAMERA FOR HYBRID LEARNING CLASSROOMS**

Logitech Scribe allows educators to bring the familiar whiteboard into video classrooms, empowering remote students to actively engage in learning exercises with their instructor and peers. With built-in AI and a custom lens, Scribe broadcasts whiteboard content into video classrooms with outstanding clarity. Now, every student can have the best seat in the classroom.

With a clean wall-mounted design and thoughtful cable management, Scribe installs elegantly and out of the way of class instruction. Together with the whiteboard content camera, Scribe includes mounting components, power supply, category cables, and a wireless share button for deployment at scale.

## EMPOWER EDUCATIONAL EQUITY

The right hybrid learning solution helps students see, hear, and understand the instructor. Now with Scribe, students can stay engaged with whiteboards in the classroom, too.

### Works with Any Whiteboard

Works with all whiteboard surfaces, capturing up to 6' W by 4' H, and any set of dry erase markers.

### Plug and Play Ready

Scribe offers the versatility to connect to any computer or laptop as a USB camera.

## ENHANCED INTEGRATION WITH TEAMS ROOMS AND ZOOM ROOMS™

### Share Button

Scribe's wireless share button makes sharing whiteboards into room system-based video classrooms quick and easy.\*

### Center-of-Classroom Control

Educators can also initiate sharing with a classroom touch controller, like Logitech Tap.

\*Share button support may vary by video conferencing service provider. See [www.logitech.com/support/scribe-compatibility](https://www.logitech.com/support/scribe-compatibility) for latest information.

PERFECT VIEWS, REMOTE OR IN THE CLASSROOM

AI-POWERED PERFORMANCE

**Presenter Removal**

Scribe’s built-in AI delivers a transparency effect, allowing students to see “through” the instructor for an unobstructed view of the whiteboard.

**Content Enhancement**

Scribe automatically enhances the color and contrast of dry erase markers, making text and sketches easier to read.

**Sticky Note Detection**

Scribe uses image segmentation to recognize and show other forms of content like sticky notes.

CLEAN, FLEXIBLE INSTALLATION

**Wall Mounting**

Securely mount Scribe to a variety of wall surfaces with the included installation kit.

**Cable Management**

Ensure clean, confident installs with cable retention and options to route cabling up, down, or through the wall.

**Flexible Cabling**

Use the included 10 meters of category cable or supply your own to fit the size and layout of your classrooms.
