# 1 Choose an ear cushion

XXS XS S M L

Choose an ear cushion size, extra, extra small (XXS) to large (L), which best fits your ears. Selecting the correct ear cushion size helps ensure a comfortable fit and seal to achieve optimal sound quality.
2 Attach ear cushions

Attach ear cushions to earphone nozzle. Push ear cushion past rib on nozzle so ear cushion will not separate from nozzle during use.
Rib

Nozzle

3 Connect to iPod® or MP3 player

Insert the earphone cable connector into the 3.5 mm headphone jack on your iPod or MP3 player.

4 Insert earphones

Gently insert the earphone marked "R," in your right ear, and the earphone marked "L" in your left ear. Never remove an earphone from your ear by pulling on its cable.
Hearing and Health is Critical!
Please review the safety guidelines in the *Important Information Document*.

5 Store your earphones

Store by wrapping cable around fingers; place earphones inside carrying case. To clean, remove cushion and wipe with a clean cloth.

Troubleshooting

- **No sound** – ensure that the 3.5 mm earphone connector is fully seated into the iPod or MP3 player headphone jack.

- **Weak bass** – check ear cushion seal; try another ear cushion size.

- **Detached ear cushions** – firmly attach ear cushions to earphone nozzle. See step 2 on reverse side.

- **Diminished sound quality** – remove ear cushions, check for blockage in nozzle, and wipe with a clean cloth.

- **Missing ear cushions** – go to www.logitech.com for replacements.
