

Logitech® Webcam C120

Quick-start guide

- 1. Manual focusing ring
- 2. Lens
- 3. Activity light
- 4. Snapshot button
- 5. Flexible clip/base
- 6. Webcam software
- 7. Quick-start guide

1

Thank you for purchasing a Logitech webcam. This guide will help you get started. Be sure to install the software first, as many of your webcam's features will not operate properly without the complete software installation.

2

Webcam connection

Please wait to connect your webcam to a computer USB port until you are prompted by the software to do so.

Tip: After you plug in your webcam, you will see a series of notifications at the bottom right of your screen. Once your webcam is detected, the software will advance to the next screen.

3

Your webcam comes with Logitech® Vid™

Free, fast, and easy video calling for you and anyone you call. And it's built into your webcam setup so you're ready to talk to the people you care about right away.

4

Choose your install

Logitech recommends installing both your webcam and Logitech Vid software. **If you do not want Logitech Vid, please pick another type of installation and skip to step 8.**

Tip: If you choose not to install Logitech Vid, making a video call will require downloading and installing third-party software.

5

Creating your account

Follow the on-screen instructions to create your Logitech Vid account and to configure your webcam for video calling.

6

Add a friend or make a practice call

Click on the practice call tile to test your settings. To add a friend, click on the tile and enter your contact's email when prompted.

Tip: The practice call tile will always be available on your contact list to test your settings.

7

Accessing account settings

Logitech will automatically detect and set the best settings for your webcam. If you would like to re-take your profile picture or update any of your settings, click the Settings icon.

8

Starting your applications

Double-click the icons to launch your applications.

1. Webcam software
2. Logitech Vid

Tip: The Logitech Vid icon is only present if you chose to install Logitech Vid. To learn about third-party video calling, please visit:

www.logitech.com/webcam_howto

9

1. Download or launch Logitech Vid
2. Record video or capture images
3. Privacy shade
4. Webcam settings
5. Access additional applications
6. Webcam help dashboard
7. Video mute

10

Need help?

Click on the ? icon to access application help, or watch videos showing how to get the most out of your Logitech webcam software.

Tip If you are not sure about a feature, you can also click on the ? icon any place in the webcam software for help.

11

Lighting correction

Logitech RightLight technology corrects for poor lighting environments. To change your settings, click on the tab as shown.

Tip: RightLight technology is available only on certain webcams.
