Getting started with
Logitech® Tablet Mouse
For Android™ 3.1+

Logitech

System requirements
Android operating system, Honeycomb 3.1
or later

1 Install the AA alkaline batteries.
The LED will blink red when the batteries need
to be replaced.

2 Turn on mouse.
Slide the switch on the bottom of the mouse.
When you are traveling with your mouse or
will not be using it for a long period of time,
turn the mouse off to extend battery life.

3 Connect mouse.

Visit www.logitech.com/tablet-mouse-android/support for Bluetooth setup instructions for your tablet.

Troubleshooting

Mouse not working

1. Turn mouse ON-OFF-ON.

2. Check battery installation and replace if expired.

3. Make sure tablet meets the system requirements described above.

4. Re-establish the Bluetooth connection between the mouse and your tablet.
