

End of Life

WEEE (Waste of Electrical and Electronic Equipment)

Logitech is committed to meeting the requirements of the *European Union's WEEE (Waste from Electrical and Electronic Equipment) directive*. The WEEE directive aims to reduce the waste arising from electrical and electronic equipment, and improve the environmental performance of everything involved in the life cycle of electrical and electronic equipment.

Logitech continued to directly finance and administer the collection of 3,110 tonnes of electronic waste in 2011.
