

Thinking of Windows® 8 for your business?

We've got you covered.

Logitech offers a wide range of products that work with the Windows® 8 operating system. For business users seeking the enhanced touch navigation experience that Windows 8 provides, Logitech offers two products **Designed for Windows 8*** to choose from. For more traditional users, Logitech recommends one of our **Windows 8 compatible**** products with productivity-enhancing benefits like hyper-fast scrolling and integrated shortcut buttons. Whatever your Windows 8 productivity needs are, Logitech has you covered.

Specially designed for Windows 8. Optimized for touch navigation.

Logitech Wireless Touchpad T650.

The perfect option for users who want the ultimate Windows 8 touch navigation experience. The large glass touch-surface with an embedded sensor for tracking precision provides fast, fluid gesture and cursor control, and supports the full range of Windows 8 navigation gestures.

Logitech Zone Touch Mouse T400.

The perfect option for users looking to transition from a traditional mouse into the Windows 8 touch navigation experience. As a hybrid mouse, the T400 is shaped like a traditional mouse with familiar finger buttons and features a glass touch area for Windows 8 touch navigation.

DESIGNED FOR
Windows 8

*Designed to fully optimize the Windows 8 touch navigation experience.

**Works with the Windows 8 operating system.
