Setting up and using the folio with your iPad

Setting up your folio

Open the folio and insert your iPad in the iPad holder.

Using your iPad

Opening the folio wakes your iPad.
Closing the folio puts your iPad into sleep mode.

Two viewing positions

The folio provides two viewing positions—one for viewing media and another for browsing.

To view media, move the iPad holder into the media position, aligning it with one of the stopping lines to secure it:

The stopping line you align with determines the viewing angle:

Media position—3 angles

To browse, fold your folio in half.

Browsing position

Troubleshooting

My iPad won't stand in the media position.

- Make sure your iPad is inserted in the iPad holder correctly, and is aligned correctly with the stopping lines.

My iPad won't wake when I open the folio, and doesn't go into sleep mode when I close it.

- Make sure your iPad is inserted in the iPad holder the right way round.
