Perfect for clutter-free
workspaces and conference rooms.

Wireless All-in-One Keyboard TK820

The Logitech Wireless All-in-One Keyboard TK820 is perfect for conference rooms and desks where it's important to keep the clutter to a minimum. With an integrated full-size touchpad and wireless design, cumbersome cables and the need for a separate mouse are eliminated. Typing, touch and swiping in one sleek plug-and-play device.

Features:

- Keyboard with built-in, full-size touchpad
- Sleek, space-saving design
- Large touch surface
- Logitech Advanced 2.4 GHz wireless connectivity

- Logitech Unifying receiver for plug-and-play productivity
- Long battery life
- Logitech PerfectStroke™ key system with Incurve™ keys

• Internet connection for software download

Inside the box

• Wireless All-in-One Keyboard
• 4 AA batteries (pre-installed)
• USB Unifying receiver
• User documentation

Warranty

3-year limited hardware

FEATURE SPOTLIGHT

Keyboard with built-in, full-size touchpad
Typing, touch and gestures are seamlessly integrated in one device. Switching between typing and swiping provides a new, effortless way to navigate.

Sleek, space-saving design
The wireless, ultra-slim design keeps desks and conference rooms cable-and clutter-free. The integrated touchpad means no separate mouse is required.

Large Touch Surface
With a touch surface that is significantly larger than a laptop touchpad, users can perform the usual point, zoom and swipe functions, plus 13 unique Windows® 8 gestures.

Long battery life
Batteries only need changing twice a year[1], reducing support requirements and costs.

Logitech Advanced 2.4 GHz wireless connectivity
The robust, secure and reliable wireless connection allows the TK820 to be placed and used where it's needed - with fast data transmission and virtually no delays or dropouts.

Logitech Unifying receiver for plug-and-play productivity
The small receiver stays plugged into the PC's USB port for easy, convenient, and clutter-free connectivity. Users can add up to six devices to one USB port.

Logitech PerfectStroke™ key system with Incurve™ keys
Typing feels comfortable, fluid and whisper-quiet with the concave key surfaces that complement the natural profile of a fingertip.
