

LOGITECH'S
COMMITMENT TO
THE EICC ELECTRONIC
INDUSTRY CODE OF
CONDUCT

The **Electronic Industry Code of Conduct** is a global code of conduct adopted by many of the world's major electronics brands and their supply chain partners.

Logitech, as a full member, along with other **Electronic Industry Citizenship Coalition** (EICC) members, collaborate to develop industry best practice and supporting tools to facilitate the successful global adoption and implementation of this Code of Conduct in the following key areas;

DEVELOP SUPPLY CHAIN CAPABILITIES

EICC members adopt the **EICC Code of Conduct** as operating principles for their companies and suppliers. This signifies their commitment to the Code's principles and their willingness to uphold its standards. The EICC provides tools to assess operational risks and determine conformance to the Code, and provides Code-related capability building tools for members to use in their own facilities and with their suppliers.

COLLABORATE ON EMERGING ISSUES

The EICC focuses on issues that are a priority to its members, including emerging issues that are not well understood. This forward-thinking approach helps develop best practices for EICC members. Responding to immediate and critical issues helps build partnerships, develop industry understanding, and foster a root-cause and solutions-oriented approach.

ENGAGE WITH STAKEHOLDERS

The EICC solicits feedback from external stakeholders to inform its projects and approaches, and to gain new perspectives on how EICC can best contribute to social and environmental responsibility in the electronics industry. Candid feedback from stakeholders that challenges the EICC results in deeper thought, more impactful actions, and better support outside the organization.

Logitech continues our commitment to directly support these initiatives. All our suppliers are required by contract to comply with the code of conduct, all applicable laws and any regulations where they conduct their business.

**L. JOSEPH SULLIVAN**

Senior Vice President, Worldwide Operations
