Compatibility

Case+Tilt was designed and manufactured solely for the Apple iPhone. Please do not attempt to combine it with any other smartphone.

1. Active Protection
2. Raised bezel
3. Metal back plate

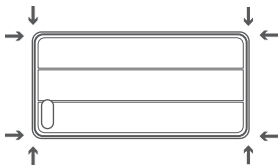

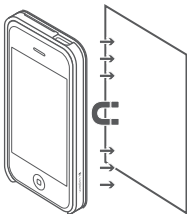

Place +Tilt panel flat against the back of the case.

Check edges to make sure it is aligned with all sides of the case.

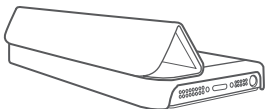

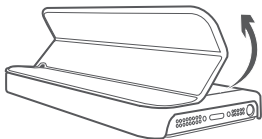

Place encased smartphone (with tilt panel) against a magnetically responsive surface.

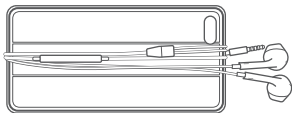

Take the edge of one side of the +Tilt panel, and fold it toward the opposite side to form a triangle.

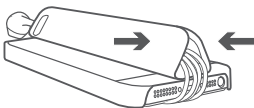

Flatten +Tilt panel till it is covering the back of the smartphone.
Wrap cords over smartphone and panel.

Fold both sides of the panel together, forming a triangle in the center of the smartphone.

Slide earbud cords and +Tilt panel off the smartphone.

FAQ:

- **Will the magnets in the case affect my smartphone?**

Nope! Your data is safe! iPhones use flash memory that isn't affected by magnetic fields. The same can't be said for 1990's floppy disks, though.

- **Will the magnets in the case affect my credit cards?**

Nope! The Case+ magnetic fields are not strong enough to hurt your credit cards. However, Hotel keys are made to be temporary and both your iPhone and your case could cause you to become good friends with the front desk.

- **My phone fell while I was using the Case+ Tilt mounting function. Will you replace my phone?**

We stand by our products. That's why we offer a warranty that covers material and workmanship. However, we are not responsible for dropped/broken phones.

Go beyond with the Logitech Case+ system.

Live life on the go with a style that's all yours—and give your smartphone the protection it deserves. The Logitech Case+ system is a modular system that gives you what you want when you want it, including a free-mount system, kickstand, earbud wrap, and battery boost.

Tips & Care:

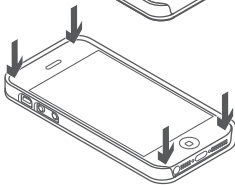

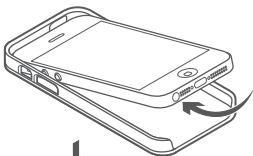

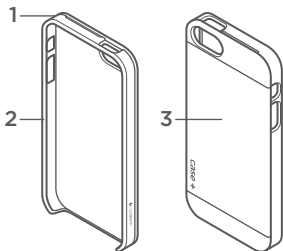

- Case+ Tilt mounts best on flat vertical, magnetically responsive surfaces. Please avoid mounting on ceilings or uneven/rough surfaces.
- We recommend turning off the vibrate function when mounting the Case+ Tilt (to prevent sliding).
- To clean the +Tilt panel, we recommend using a mild soap and a damp cloth.
- Please use care and common sense when using this product. We accept no responsibility for dropped/broken phones.

兼容性

保护套 + 多功能面板专为 Apple iPhone 设计制造。请勿将其与任何其他智能手机配合使用。

1. 主动保护
2. 提升的挡板
3. 金属材质背板

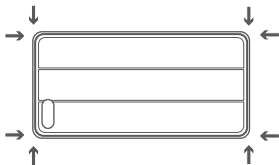

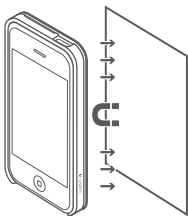

将多功能面板平置于保护套背面。

检查边缘位置，确保与保护套各边对齐。

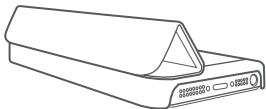

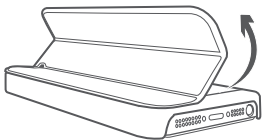

将装有保护套的智能手机（带多功能面板）与磁灵敏触摸表面相对放置。

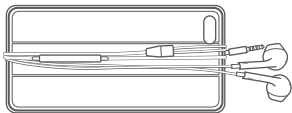

将多功能面板一侧的边缘向相反方向折叠，直至形成一个三角形。

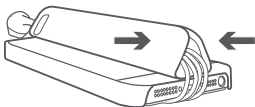

将多功能面板放平，直至完整覆盖智能手机的背面。环智能手机和面板缠绕线缆。

将面板两侧向上对折，至其在智能手机的中部形成一个三角形。

将耳塞线和多功能面板滑离智能手机。

常见问答：

- **保护套上的磁体是否会影响我的智能手机？**

不会！您的数据非常安全！iPhone 所使用的闪存不会受到磁场的影响。但这一点不适用于 1990 的软盘。

- **保护套上的磁体是否会影响我的信用卡？**

不会！保护套的磁场很微弱，尚不足以威胁您的信用卡。但是，供临时使用的酒店钥匙可能会受磁场影响。您可能需要就 iPhone 和保护套对其造成的影响与酒店前台联系。

- **我的手机在使用保护套 + 多功能面板支撑功能过程中跌落，你们会负责更换手机吗？**

我们只对我们的产品负责。因此我们的质保范围覆盖材料以及工艺。但是，我们对于跌落/损坏的手机不承担任何责任。
