INTRODUCTION

The Switch Panel features realistic switches and controls which interact in real time with Microsoft Flight Simulator X to make your flying experiences more realistic.

INSTALLATION

You can fix the Switch Panel to your desk using the velcro strips. If you already own a Logitech G Flight Yoke System, you can also mount the Switch Panel on top of the Yoke unit using the screws provided.

Important: To fix the Flight Switch Panel to the Flight Yoke System, first remove the Switch Panel from the mounting bracket, screw the bracket to the top of the Yoke System and then re-attach the Switch Panel to the front of the bracket.

Plug the Switch Panel's USB cable into one of your PC's free USB ports (or Logitech G Flight Yoke USB hub).

INSTALLATION FOR WINDOWS® 10, WINDOWS® 8.1 AND WINDOWS® 7

DRIVER INSTALLATION

- 1 Visit logitech.com/support/switch-panel to download the latest drivers and software for your operating system.
- 2 **With device disconnected**, follow the onscreen instructions to complete the installation.
- 3 At the Driver Setup screen, **only when prompted**, insert USB cable into one of your computer's USB ports, then click **Next**.

TROUBLESHOOTING

Once you have installed the appropriate plug-in for Flight Simulator X (FSX), the next time you run FSX it will prompt you that it is attempting to load the Logitech G Panel(s) Plug-in for FSX - click Yes on this screen.

After that you should see a Windows security warning asking you if you want to run LogiFlightSimX.exe - click Yes on that screen.

Finally, FSX will prompt you if you wish to make LogiFlightSimX.exe a trusted piece of software - click Yes.

Once you have installed the Panel software, the Panel buttons and controls should be automatically configured to control their functions in FSX software. If your FSX software does not recognise the Panel, unplug the USB cable and plug it back in.

For further help with other sims or any other questions, check the support page at logitech.com/support/switch-panel.

TECHNICAL SUPPORT

Online Support: support.logitech.com

简介

开关面板具有逼真的开关和控件，支持与 Microsoft Flight Simulator X 交互，让您获得更加真实的飞行体验。

❑ 发动起启动/停止功能

混合电池、
❑ 驾驶舱和除冰功能

❑ 整流罩打开/关闭
(螺旋桨飞机)

❑ 灯光系统开/关

❑ 起落架收起/放下和 LED 指示灯

安装

您可通过尼龙搭扣带将开关面板固定到台面上。如果已拥有罗技 G 飞行控制器系统，还可通过随附的螺丝将开关面板安装到飞行控制器上面。

重要提示： 要将飞行开关面板固定到飞行控制器上，先将开关面板从安装托架上卸下，将托架旋拧到控制器系统上，然后再从新将开关面板固定到托架的正面。

将开关面板的 USB 接线插入 PC 上的一个可用 USB 端口 (或插入罗技 G 飞行控制器 USB 集线器)。

WINDOWS® 10、WINDOWS® 8.1 和 WINDOWS® 7 的安装

驱动程序安装

- 1 访问 logitech.com/support/switch-panel, 下载面向您操作系统的最新驱动程序和软件。
- 2 在设备连接情况下, 按屏幕说明完成安装。
- 3 在“驱动程序安装”画面中, **只有在出现提示时**, 再将 USB 线插入计算机 USB 端口, 然后单击**下一步**。

疑难解答

在已为 Flight Simulator X (FSX) 安装相应的插件后, 下一次运行 FSX 时便会提示其正在尝试加载 FSX 的罗技 G 面板插件 - 在此屏幕中单击“是”。

此后, 应可看到 Windows 安全警告, 询问您是否要运行 LogiFlightSimX.exe - 在此屏幕中单击“是”。

最后, FSX 将询问您是否要将 LogiFlightSimX.exe 列为受信任的软件 - 单击“是”。

在已安装面板软件后, 面板按钮与空间应自动配置, 并可控制 FSX 软件中的相应功能。

如果您的 FSX 软件未识别本面板, 拔出 USB 线并重新插入。
