

Logitech® diNovo™ Media Desktop™

Bluetooth® cordless • Bluetooth® wireless hub • Cordless • Detached MediaPad™ • Enhanced Function Keys • Internet Forward/Back • MX™ Optical Engine • Multimedia Control • Optical • PC • PS/2 • Quick Switch • Rechargeable mouse • Scroll wheel • USB • Zero Degree Tilt™

Logitech's diNovo Media Desktop is a dramatically designed Bluetooth keyboard, MediaPad, optical mouse, and Bluetooth hub combination that delivers wireless mastery over the rich capabilities of today's PCs.

If you love design as much as performance, the diNovo Media Desktop was built for you. diNovo gives you advanced wireless freedom and a powerful way to orchestrate your PC's digital media capabilities. Even more, it makes your PC a Bluetooth control center. And it possesses a look and feel that is pure artistry.

Let's start with the keyboard. With clean lines and an ultra-flat design, the diNovo keyboard fits beautifully with contemporary PC systems and flat LCD monitors. You'll enjoy the full-size typing layout, full travel keys, and array of extra buttons to simplify your work. Just plug it in and watch it completely transform your desktop.

You've never seen anything like the MediaPad, a Bluetooth remote commander for all your digital media. Use it to remotely view, select, and launch your favorite jukebox tunes, video clips, or digital photos. The MediaPad also displays email or instant message notifications, and it lets you monitor media selection playback status, even when you're away from your desk. It's a numeric keypad with a built-in smart calculator. And you can view time and date in the digital display.

Moving to the mouse, the diNovo Media Desktop includes Logitech's most advanced performer: the rechargeable [MX™900 Cordless Optical Mouse](#). Its award-winning MX Optical Engine is the last word in precision and accuracy.

To streamline your desktop, a single external device performs two critical functions: wireless hub for all your Bluetooth devices and fast power charger for the mouse. Communicate instantly using your Bluetooth headset, or easily exchange data between your PC and your Bluetooth PDA, cell phone, and printer. Thanks to the power of Bluetooth, you can do it all without wires. [Learn more about all the things you can do with Bluetooth and Logitech.](#)

- All you need to put your Bluetooth devices to work for you right now, right at your desktop.
- Combines a visually stunning keyboard, detached MediaPad and rechargeable cordless optical mouse
