Setting up the keyboard case

**Getting started**

1. Open the keyboard case and push your Ellipsis™ 8 into the tablet holder:

2. Push your Ellipsis™ 8 down into the hook:

3. Move the keyboard case into the typing position by lifting the back of the protective case and sliding the hook forwards until it aligns with the magnet:
Connecting your keyboard and tablet
The keyboard case links to your tablet via a Bluetooth connection. The first time you use the keyboard case, you must pair the keyboard with your tablet.

1. Turn on the keyboard:
The status light blinks blue (fast blink) to indicate that the keyboard is discoverable, ready for pairing with your tablet. The first time you turn on the keyboard it remains discoverable for 15 minutes.
If the status light turns red, charge the battery. For more information, see “Charging the keyboard battery.”

2. Make sure your tablet’s Bluetooth feature is on.
From a Home screen, touch Apps → Settings, and turn on the Bluetooth switch.

3. Pair the keyboard case with your tablet.
(i) In your tablet’s Bluetooth settings page, press Search for devices.
(ii) Select “Type-V” in the list of Available devices.
(iii) When prompted, enter the PIN displayed using the case keyboard.
Then, press the Enter key to validate.
When successful connection is made, the status light turns solid blue for a short time, and then turns off.
Connecting to another tablet

1. Make sure the keyboard is turned on.

2. Make sure your tablet’s Bluetooth feature is on.
   From a Home screen, touch ⬤ Apps ➔ Settings, and turn on the Bluetooth switch.

3. Press the Bluetooth Connect button:

   The status light blinks blue (fast blink) to indicate that the keyboard is discoverable, ready for pairing with your tablet. The keyboard is discoverable for 3 minutes.

4. Pair the keyboard case with your tablet.
   (i) In your tablet’s Bluetooth settings page, press Search for devices.
   (ii) Select “Type-V” in the list of Available devices.
   (iii) When prompted, enter the PIN displayed using the case keyboard. Then, press the Enter key to validate.

   When successful connection is made, the status light turns solid blue for a short time, and then turns off.
Using the keyboard case

**Two viewing positions**

The keyboard case provides two viewing positions—one for typing and another for browsing.

To type:

1. Move the tablet holder into the typing position, aligning it with the built-in magnet to secure it:

   ![typing position]

2. Turn on the keyboard:

   ![keyboard on]

   If the status light turns red, charge the battery. For more information, see “Charging the keyboard battery.”

   If you don’t use the keyboard for a while in the typing position, it enters sleep mode automatically. Pressing any key wakes it.

To browse, place the tablet holder in the browsing position:

![browsing position]

You can switch off the keyboard if you want to conserve battery power.
Status light indicators

**Bluetooth and battery status light**

<table>
<thead>

Function keys

- **Android™ home**
- **FN + Back: Esc**
- **FN + 1: Lock screen**
  Lock or unlock the tablet screen
- **FN + 2: Search**
- **FN + 3: Web browser**
- **FN + 4: Mail**
- **FN + 5: Calendar**
- **FN + 6: Music**
- **FN + 7: Previous track**
- **FN + 8: Play/Pause**

**Note:**
To select a function key, press and hold the FN key, and then press the key indicated above.
Charging the keyboard battery

If the status light is red the keyboard case battery needs to be charged.

1. Plug one end of the micro-USB cable into the charging port, and the other end into a USB port on your computer. The status light blinks green as the battery charges.

2. Charge the battery until the status light turns solid green.

Battery information

• A fully charged battery provides about three months of use when the keyboard is used about two hours a day.

• Charge the battery if the status light turns red briefly after the keyboard turns on.

• When not in use, turn off the keyboard to conserve battery power.

• The keyboard enters sleep mode automatically if not used for a while in the typing position. Press any key to wake it.

• One minute of charging can provide 2 hours of use; approximately 2.5 hours of charging can provide a full power.*

* Actual charging and battery life will vary with use, settings, and environmental conditions.
Battery disposal at product end of life

1. Pry off top cover of keyboard with screwdriver.
2. Detach battery from circuit board and remove battery.
3. Dispose of your product and its battery according to local laws.
When you’ve finished using the keyboard case

**Detaching your tablet**
1. Release your tablet from the hook:

   ![Diagram of tablet being released from hook]

2. Slide your tablet out of the tab holders:

   ![Diagram of tablet being slid out]

Your tablet is then released.

**Storing your tablet for travel**
1. Insert your tablet in the tablet holder.
2. Close the keyboard case:

Troubleshooting
The keyboard does not work
• Press any key to wake the keyboard from sleep mode.
• Turn the keyboard off and then back on.
• Recharge the internal battery. For more information, see “Charging the keyboard battery.”
• Verify that Bluetooth is turned on in your tablet’s settings (Apps → Settings → Bluetooth).
• Verify that “Type-V” is paired with your tablet (Apps → Settings → Bluetooth).
• Re-establish Bluetooth connection between the keyboard and your tablet by selecting “Type-V” in the list of Available devices. The status light on your keyboard turns solid blue when Bluetooth connection is established.
