Power

ON/OFF

Note: To save power, X50 will automatically turn itself off after 15 minutes of no *Bluetooth* connection.

Connection – via *Bluetooth*

10 m (30 ft)

Pairing your first device
When you turn X50 on for the first time, it automatically goes into pairing mode and searches for a *Bluetooth* source device to pair with. X50 works with *Bluetooth*-enabled devices that support Advanced Audio Distribution Profile (A2DP), such as smartphones, tablets and personal computers.

Pairing additional devices
To pair X50 with additional source devices, press and hold the Power / *Bluetooth* pairing button for 3 seconds. X50 will enter pairing mode, make a sound, and flash its *Bluetooth* LED while searching for another device. Once the next device is paired with, X50 will sound to confirm pairing and the *Bluetooth* LED will remain solid blue.

X50 will remember the last 8 devices it was connected to. The next time the speaker is turned on, it will attempt to reconnect automatically to the last device it was connected to before it was turned off.

X50's *Bluetooth* range is approximately 10 meters, or 30 feet. If you take your source device out of range, the connection will be suspended. X50 will automatically reconnect if the source device is brought back in range within 5 minutes. After 5 minutes, the active connection will be dropped.

Connection – via Auxiliary input
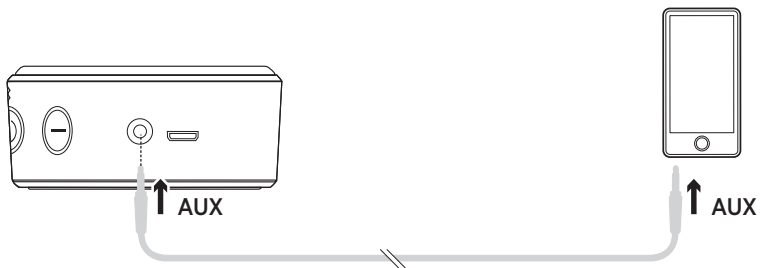

You can also connect X50 with any source devices using a 3.5mm auxiliary cable.

与您的第一个设备配对
X50 在第一次开启时将自动进入配对模式并搜索要与之配对的蓝牙音源设备。X50 适用于支持高级音频传输模式 (A2DP) 且启用蓝牙功能的设备，例如智能手机、平板电脑和个人电脑。
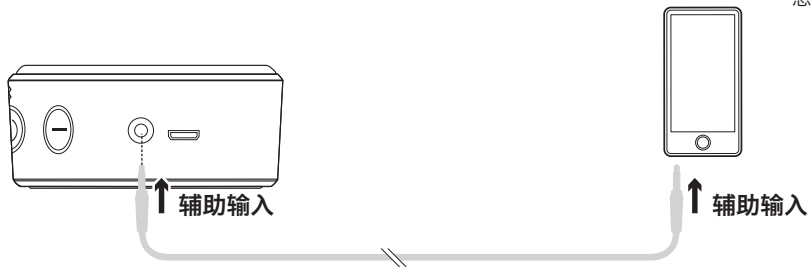

多台设备配对
要将 X50 与其他音源设备配对，请按住电源/蓝牙配对按钮 3 秒钟。X50 将进入配对模式并伴有提示音，蓝牙 LED 指示灯在搜索另一个设备的过程中会不停闪烁。完成与下一个设备的配对后，X50 将发出提示音确认配对，同时蓝牙 LED 指示灯将恒亮蓝灯。
X50 将会记住最后 8 个曾连接的设备。当音箱再次开启时，将尝试自动重新连接关机前所连接的最后一个设备。

X50 的蓝牙范围约为 10 米或 30 英尺。如果您的音源设备超出此范围，连接将会中断。如果 5 分钟内将音源设备重新移入此范围，X50 将重新自动进行连接。如果超过 5 分钟，有效连接将会终止。
