Product Description

Logi BASE Charging Stand with Smart Connector™ is the charging stand that belongs with your iPad Pro™. Designed in collaboration with Apple, Logi BASE leverages the Smart Connector to provide an effortless drop-and-go charging solution for your iPad Pro. BASE also provides the perfect viewing angle when your iPad is on a desk, countertop or nightstand. Made from high-quality aluminum materials and with a sturdy anti-slip pad, Logi BASE takes charging to a whole new level.

Key Features

- Apple Smart Connector compatibility: Logi BASE charges your iPad through the Smart Connector. Magnets in the charging cradle guide your iPad Pro into place to align with the Smart Connector. Just drop your iPad Pro on BASE and it begins to charge.
- New possibilities in every room: Logi BASE is the best place for your iPad Pro to be in every room of the house. You can prop up and charge your iPad Pro at the perfect angle while taking full advantage of your tablet; with over a million apps to choose from and the intelligence of Siri®, you can completely rethink the way you use your iPad Pro.
- Designed for iPad Pro: From the high-grade aluminum to the premium finish and curved shape, every detail is designed to complement the iPad Pro, and makes it a pleasure to look at and use.
