LOGITECH ROOM SOLUTIONS FOR GOOGLE MEET

Google Meet™ transforms any space to a collaborative meeting place with one-touch join, easy content sharing, and center of room control for online meetings. Now, Logitech® makes it easy for IT to deploy these benefits to rooms of all shapes and sizes with pre-configured systems and expert support resources.

Logitech Room Solutions for Google Meet include everything you need to build out conference rooms with one or two displays. Available in small, medium, and large configurations, these pre-configured systems include a Logitech conferencecam, Meet Compute System and mount with cable retention, and the Logitech Tap touch controller.

Systems arrive neatly packaged and ready for installation. A setup guide shows how components fit together, while an online wizard guides you through configuration step-by-step.

With quality components, commercial-grade cabling, and innovations that automate a better user experience, Logitech Room Solutions for Google Meet make it easy to deploy video collaboration throughout the workplace.

SMALL ROOMS

Designed for focus rooms and smaller conference rooms, the small configuration minimizes cabling and saves space with Logitech MeetUp, a marvel of miniaturization that mounts neatly above or below a display. Place Logitech Tap on the table, or add a wall mount to save even more space.

MEDIUM ROOMS

As rooms get bigger, tables grow longer and people sit farther from the camera. That's why the medium configuration features Logitech Rally, a premium conferencecam that pairs an advanced ultra-HD camera with modular audio that scales to support a wide range of room sizes and layouts.

LARGE ROOMS

The large configuration upgrades to Rally Plus with two speakers for clear audio throughout the room. Dual mic pods expand coverage for up to 16 people, and the system supports up to 7 mic pods for rooms with up to 46 seats.

FEATURED COMPONENTS

Logitech Tap

Touch controller for workplace collaboration

Responsive 10.1" touch screen

Fan-free for silent operation

Commercial-grade cabling and cable management

HDMI input for local projection

Logitech MeetUp

All-in-One conferencecam with an extra-wide field of view and integrated audio

See everyone, even those close to the camera

RightLight™ and RightSound™ technologies for clear video and front-of-room audio

Compact design minimizes cabling and clutter

Logitech Rally

Premium Ultra-HD conferencecam system for mid-size rooms

RightLight with WDR shows participants in flattering light, even in dim or backlit conditions

Front-mounting speaker and tabletop mic pod with RightSound for directional audio with reduced noise and echo

Premium components and sleek industrial design

Logitech Rally Plus

Premium Ultra-HD conferencecam system for larger rooms

Adds a second speaker and second mic pod for expanded coverage

Expand with additional mic pods (up to 7 total) for rooms with up to 46 people

Large configurations add a Rally Mic Pod Hub for under-table cable routing

Logitech Strong USB
SuperSpeed USB 10 Gbps cable

10m Included   25m Optional

The Logitech Tap touch controller connects to the meeting room Meet Compute System via Logitech Strong USB, a plenum-rated cable that offers 10 meters (32.8 feet) of reach. Even in larger rooms, you can position Tap for convenient operation while hiding the Meet Compute System in a credenza or behind display.
Aramid-reinforced for a durable connection between Tap and the Chromebox

Plenum-rated and Eca certified for runs in walls, raceways, and conduit

Optional 25 meter cable available for large rooms and long runs

Meet Compute System Mount
Mounting bracket with integrated cable retention

Compatible with Meet Compute System and SFF PCs with a 100mm VESA pattern

Integrated cable retention keeps connections tight

Secures computers and cables to walls and beneath tables

Rally Mounting Kit
Included with medium and large configurations

Securely position Rally Camera on wall or near ceiling

Low-profile speaker brackets provide "floating" appearance

Robust cable retention brackets keep connections tight

Rally Mic Pod
Modular microphones with RightSound for Logitech Rally

Auto-levels voices and suppresses noise for clear audio

Convenient mute control and indicator light

Connect up to seven Mic Pods for U-shaped tables and large rooms

Large room configurations include Rally Mic Pod Hub to simplify under-table cable routing

180°   180°

Table Mount   Riser Mount   Wall Mount

Place the Logitech Tap touch controller on the tabletop, or add a mount for better security, convenience, and cable management.
The Table and Riser mounts fit in standard grommet holes and swivel 180° for operation from both sides of the table. The Wall mount saves space in smaller rooms.
