5. M650B Mouse
6. SmartWheel
7. Side keys
8. Batteries + dongle compartment (mouse bottom side)

CONNECT YOUR MK650

There are two ways to connect your keyboard and mouse to your device.

Option 1: Through Logi Bolt receiver

Option 2: Through direct *Bluetooth*® Low Energy (BLE) connection*

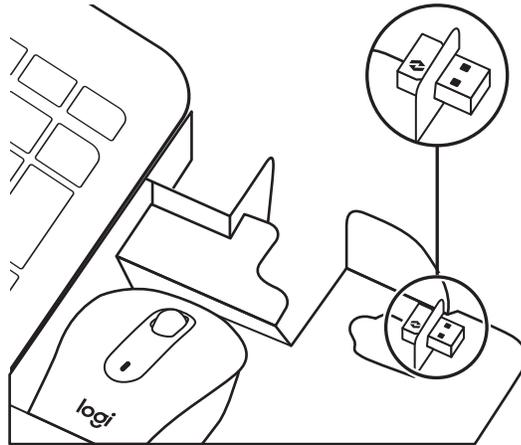

Note: *For *ChromeOS* users, we recommend connecting to your device only through BLE (Option 2). A dongle connectivity will bring experience limitations.

To pair through **Logi Bolt receiver:**

STEP 1:

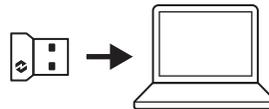

Take the Logi Bolt receiver from the packaging tray that was holding your keyboard and mouse.

IMPORTANT: Don't remove the pull-tabs from your keyboard and mouse yet.

STEP 2:

Insert the receiver into any available USB port on your desktop or laptop.

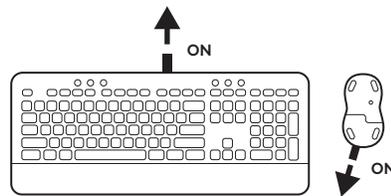

STEP 3:

Now you can remove the pull-tabs from both keyboard and mouse. They will automatically turn on.

The receiver should be successfully connected to your device when the white LED stops blinking:

- Keyboard: on the connect key
- Mouse: at the bottom

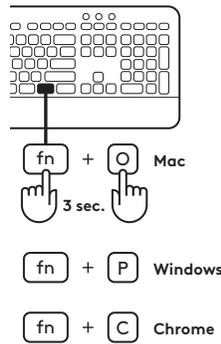

STEP 4:

Set the right keyboard layout for your computer operating system:

Long press for 3 seconds the following shortcuts to set it up for *Windows*, *macOS* or *ChromeOS*.

- *Windows*: Fn + P
- *macOS*: Fn + O
- *ChromeOS*: Fn + C

IMPORTANT: *Windows* is the default OS layout. If you are using a *Windows* computer you can skip this step. Your keyboard and mouse are now ready to use.

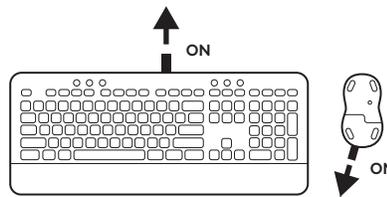

To pair through **Bluetooth®**:

STEP 1:

Remove the pull-tab from both keyboard and mouse. They will automatically turn on.

A white LED on your devices will start blinking:

- Keyboard: on the connect key
- Mouse: at the bottom

STEP 2:

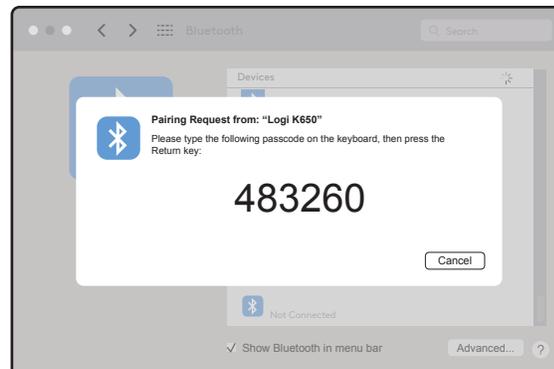

Open the *Bluetooth®* settings on your device. Add a new peripheral by selecting both your keyboard (K650B) and your mouse (M650B) from your list of devices. Your keyboard and mouse will be paired once the LEDs stop blinking.

STEP 3:

Your computer will require you to input a random set of numbers, please type them all and press the "Enter" key on your keyboard K650.

Your keyboard and mouse are now ready to use.

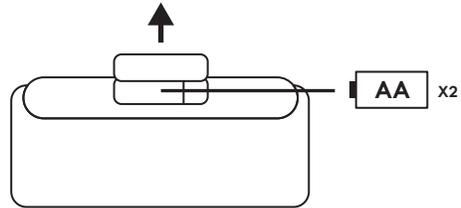

DONGLE COMPARTMENT

If you are not using your Logi Bolt USB receiver, you can safely store it inside your keyboard or mouse.

To store it on your **keyboard**:

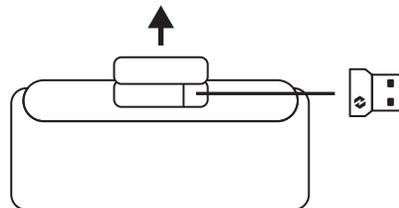

STEP 1:

Remove the battery door from the bottom side of your keyboard.

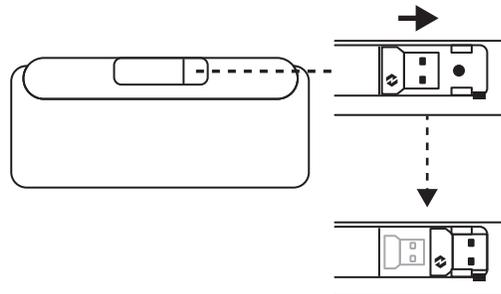

STEP 2:

The dongle compartment is located on the right side of the batteries.

STEP 3:

Place your Logi Bolt receiver in the compartment and slide it to the right side of the compartment to secure it tight.

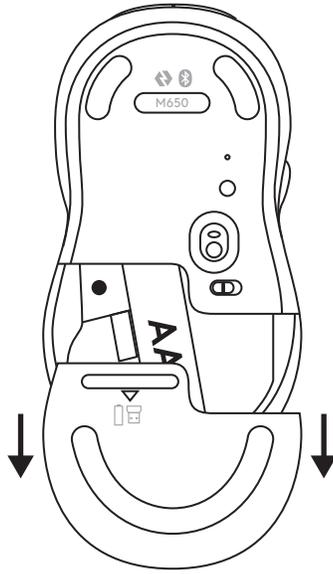

DONGLE COMPARTMENT (CONT'D)

To store it on your **mouse**:

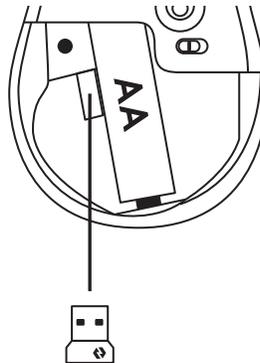

STEP 1:

Remove the battery door from the bottom side of your mouse.

STEP 2:

The dongle compartment is located on the left side of the battery. Slide your dongle vertically inside the compartment.

KEYBOARD FUNCTIONS

You have a full range of useful productive tools on your keyboard that will help you save time and work faster.

F-Rows Keys									
									
Main function	Windows	Escape	Brightness down	Brightness up	Task view	App switch	Dictation* ¹	Emoji* ²	Snip & sketch
	macOS				Mission control	Mission control		Emoji	Capture selected area
Secondary function		Fn lock	F1	F2	F3	F4	F5	F6	F7

									
Main function	Windows	Mute mic* ³	Back in browser	Refresh in browser	Open tab in browser	Close tab in browser	Connect key	Sittings	Print panel
	macOS					Close tab in browser* ³		Sittings* ³	
Secondary function		F8	F9	F10	F11	F12			

					
Main function	Windows	Calculator	Show desktop	Search	Screen lock
	macOS	Calculator* ³			Screen lock* ⁴
Secondary function			Scroll lock	Contextual menu	

		Language Switch Key	Hot Keys					
								
Main function	Windows	Input language switch	Previous track	Play/Pause	Next track	Mute sound	Volume down	Volume up
	macOS							
Secondary function		Insert						

Most of these keys work without the need of installing software (Logitech Options+), except for:

- Mute Microphone key: Install Logitech Options+ for it to work on *Windows* and *macOS*; works out of the box on *ChromeOS*
- Close browser tab key, Settings key and Calculator key: Install Logitech Options+ for it to work on *macOS*; works out of the box on *Windows* and *ChromeOS*

^{*1}For *Windows*: Dictation key needs Logi Options+ installed to work on Korean. For *macOS*: Dictation key needs Logi Options+ installed to work on *Macbook Air M1* and *2022 Macbook Pro (M1 Pro and M1 Max chip)*.
Required a built-in mic or an external mic, for example, your headset mic, to use the dictation key.

^{*2}For *Windows*: Emoji key needs Logi Options+ software installed for France, Turkey, and Begium keyboard layouts.

^{*3}Free Logi Options+ software is required to enable the function.

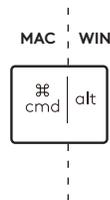

^{*4}For *macOS*: Screen lock key needs Logi Options+ installed for France keyboard layouts.

MULTI-OS KEYBOARD

Your keyboard is designed to work with multiple operating systems (OS): *Windows*, *macOS*, *ChromeOS*.

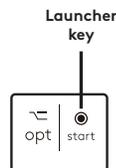

FOR **WINDOWS** and **macOS** KEYBOARD LAYOUT

- If you are a **macOS** user, the special characters and keys will be on the left side of the keys
- If you are a **Windows** user, the special characters will be on the right side of the key:

FOR **ChromeOS** KEYBOARD LAYOUT

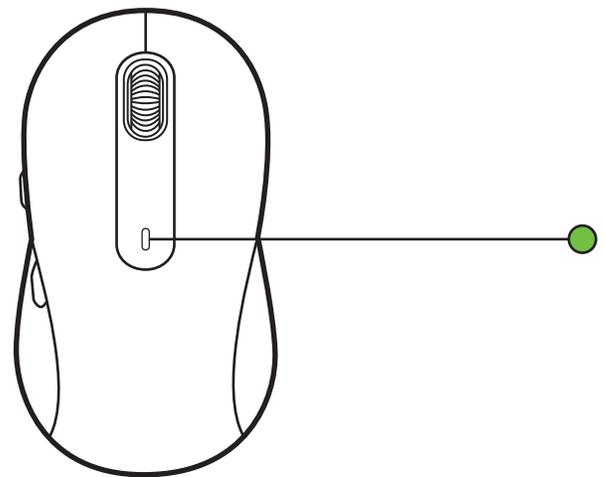

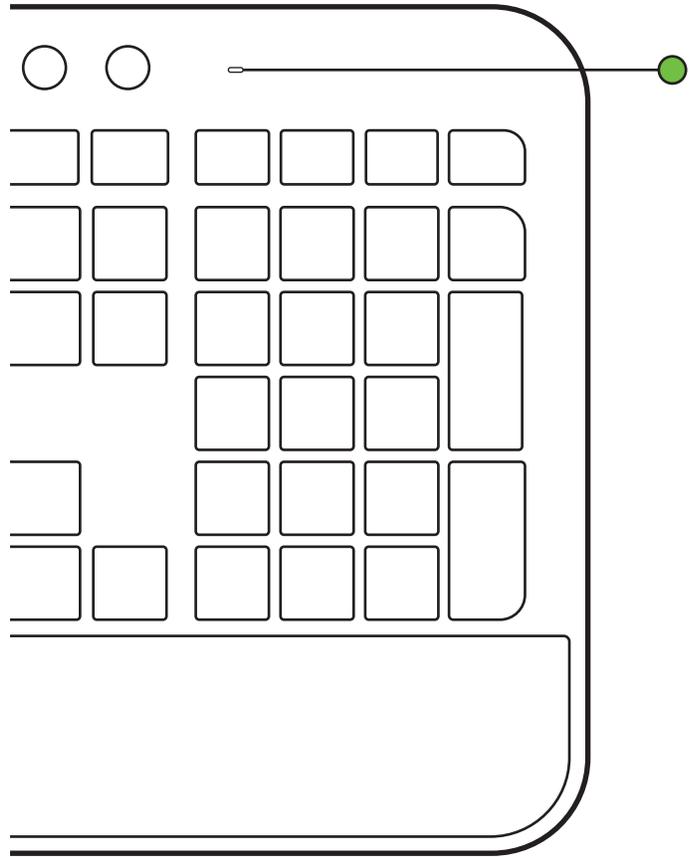

- If you are a **Chrome** user, you will find one dedicated *Chrome* function, **Launcher key**, on top of the start key. Make sure you have selected the *ChromeOS* layout (FN+C) when you connect your keyboard.

Note: For *ChromeOS* users, we recommend connecting to your device only through BLE.

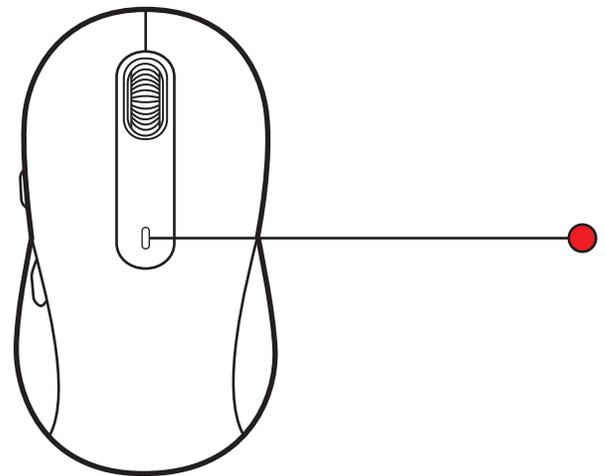

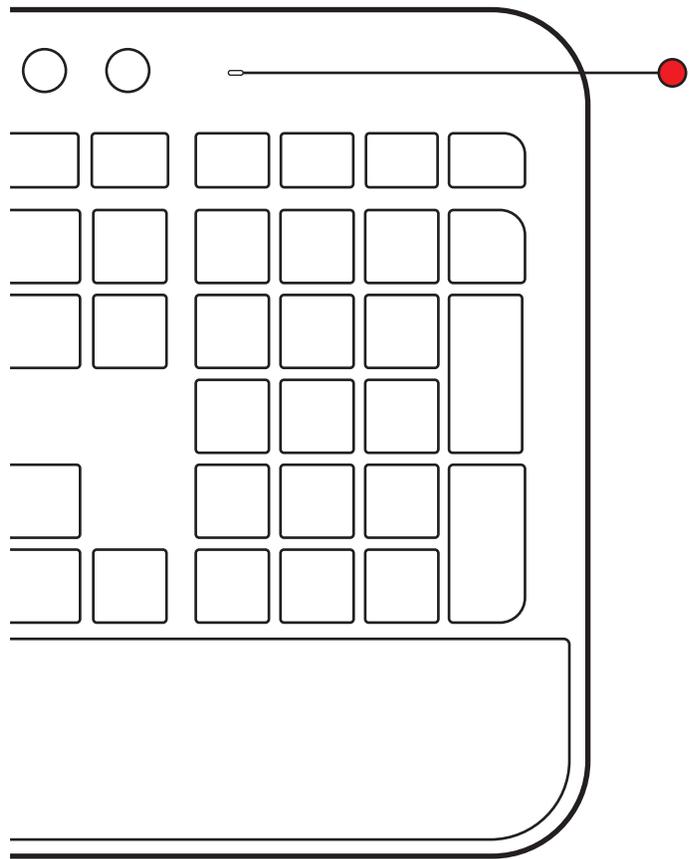

BATTERY STATUS NOTIFICATION

1a. When the battery level is **between 6% to 100%**, the LED color will stay **green**.

1b. When the battery level is **below 6% (from 5% and below)**, the LED will turn into **red**. You can continue using your device for up to 1 month when the battery is low.

Note: Battery life may vary based on user and computing conditions.

7. 侧键
8. 电池 + 接收器收纳 (鼠标底部)

连接 MK650

有两种将键盘和鼠标连接到设备的方式。

方案 1: 通过 Logi Bolt 接收器连接

方案 2:

通过蓝牙™ 低功耗 (BLE) 直接连接*

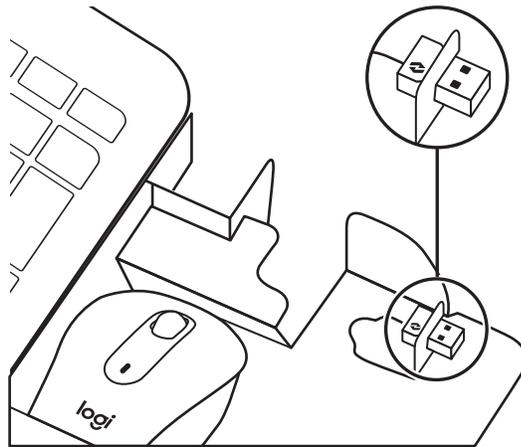

注: *对于 ChromeOS 用户, 我们建议仅通过 BLE (方案 2) 连接您的设备。接收器连接会带来体验限制。

通过 Logi Bolt 接收器连接:

步骤 1:

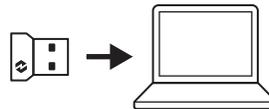

从键盘和鼠标的包装中取出 Logi Bolt 接收器。

重要提示: 暂时不要移除键盘和鼠标的拉片。

步骤 2:

将接收器插入桌面电脑或笔记本电脑的可用 USB 端口。

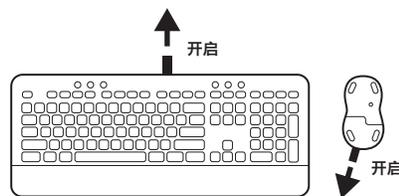

步骤 3:

现在, 您可以移除键盘和鼠标的拉片。设备会自动开启。

当白色 LED 停止闪烁时, 接收器应已成功连接到您的设备:

- 键盘: 位于连接键上
- 鼠标: 位于底部

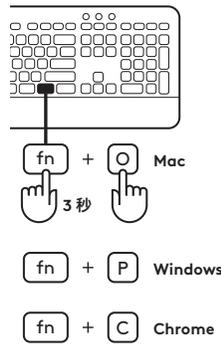

步骤 4:

为您的电脑操作系统设置正确的键盘布局:

长按以下快捷键 3 秒可针对 Windows、macOS 或 ChromeOS 进行设置。

- Windows: Fn + P
- macOS: Fn + O
- ChromeOS: Fn + C

重要提示: Windows 为默认系统布局。如果您使用的是 Windows 电脑, 可以跳过此步骤。您的键盘和鼠标现在便已准备就绪。

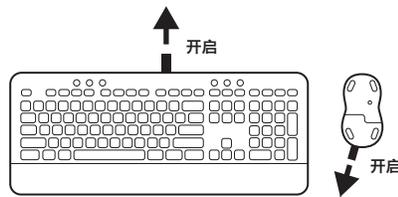

通过蓝牙™配对:

步骤 1:

移除键盘和鼠标的拉片。设备会自动开启。

设备上的白色 LED 将开始闪烁:

- 键盘: 位于连接键上
- 鼠标: 位于底部

步骤 2:

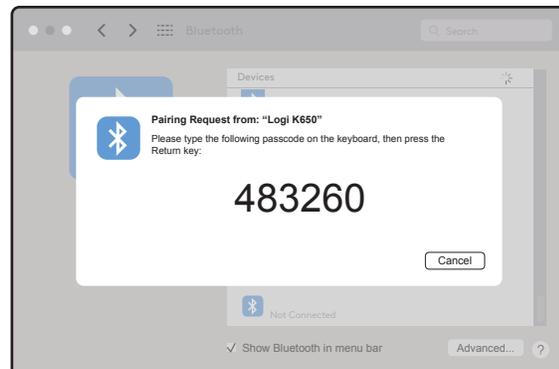

打开设备的蓝牙™设置。从设备列表中选择键盘 (K650B) 和鼠标 (M650B), 即可添加新外设。LED 停止闪烁后, 键盘和鼠标即已配对。

步骤 3:

您的电脑将要求您输入一组随机数字, 请全部输入并按下键盘 K650 的“Enter”键。

您的键盘和鼠标现在便已准备就绪。

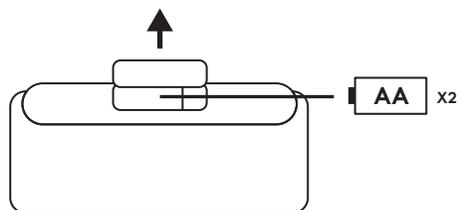

接收器收纳

如果不使用 Logi Bolt USB 接收器，可以将其安全收纳在键盘或鼠标内。

收纳于**键盘内**：

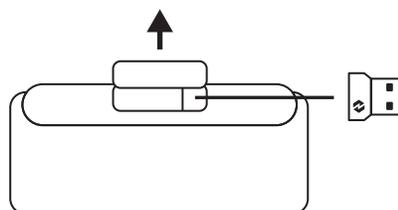

步骤 1:

从键盘底部移除电池盖。

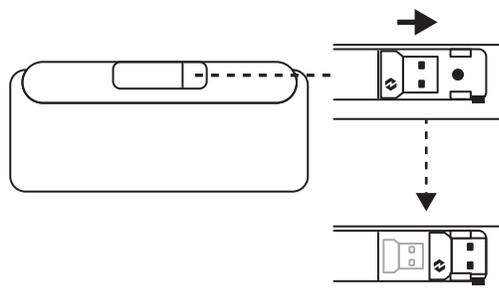

步骤 2:

接收器收纳处位于电池右侧。

步骤 3:

将 Logi Bolt 接收器放入隔层，并滑至隔层右侧以固定。

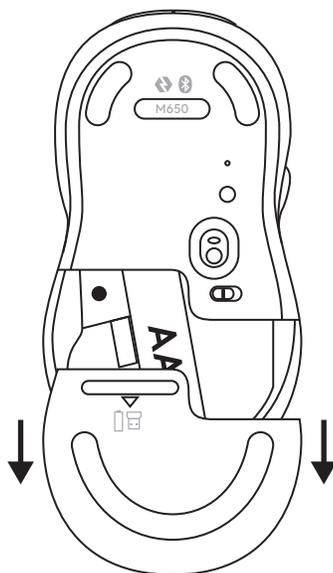

接收器收纳 (续)

收纳于鼠标内:

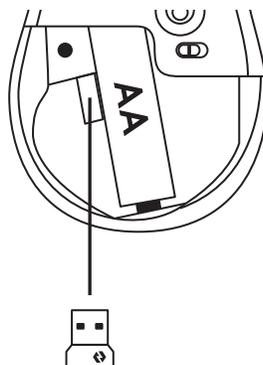

步骤 1:

从鼠标底部移除电池盖。

步骤 2:

接收器收纳处位于电池左侧。在隔层内垂直滑入接收器。

键盘功能

键盘提供一系列实用的高效工具，可帮助您节省时间并提高工作效率。

F 键									
									
主功能	Windows	Esc	亮度下降	亮度上升	任务视图	应用程序切换	听写*1	表情符号*2	截图和绘制
	macOS				调度中心	调度中心		表情符号	捕获选定区域
次级功能		Fn 锁定	F1	F2	F3	F4	F5	F6	F7

									
主功能	Windows	麦克风静音*3	返回浏览器	在浏览器中刷新	在浏览器中打开标签页	在浏览器中关闭标签页	连接键	设置	打印面板
	macOS					在浏览器中关闭标签页*3		设置*3	
次级功能		F8	F9	F10	F11	F12			

					
主功能	Windows	计算器	显示桌面	搜索	屏幕锁定
	macOS	计算器*3			屏幕锁定*4
次级功能			Scroll lock	相关菜单	

		语言切换键	热键					
								
主功能	Windows	输入语言切换	上一曲目	播放/暂停	下一曲目	静音	音量下降	音量上升
	macOS							
次级功能		Insert						

多数按键无需安装软件 (Logitech Options+) 即可使用, 但以下按键除外:

- 麦克风静音键: 安装 Logitech Options+ 使其可在 Windows 和 macOS 中使用; 在 ChromeOS 中开箱即可用
- 关闭浏览器标签页键、设置键和计算器键: 安装 Logitech Options+ 使其可在 macOS 中使用; 在 Windows 和 ChromeOS 中开箱即可用

^{*1}对于 Windows: 听写键需要安装 Logi Options+ 才能支持韩语。对于 macOS: 听写键需要安装 Logi Options+ 才能在 Macbook Air M1 和 2022 Macbook Pro (M1 Pro 和 M1 Max 芯片) 中使用。
需要使用电脑内置或外置麦克风以实现语音输入及识别。

^{*2}对于 Windows: 对于法国、土耳其和比利时键盘布局, 使用表情符号键需要安装 Logi Options+ 软件。

^{*3}启用此功能需要使用免费的 Logi Options+ 软件。

^{*4}对于 macOS: 对于法国键盘布局, 使用屏幕锁定键需要安装 Logi Options+。

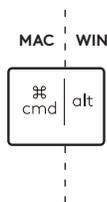

多操作系统键盘

键盘设计支持多种操作系统 (OS):

Windows, macOS, ChromeOS。

对于 **WINDOWS** 和 **macOS** 键盘布局

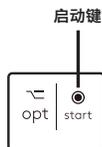

- 如果您是 **macOS** 用户, 特殊字符和按键位于按键左侧:
- 如果您是 **Windows** 用户, 特殊字符位于按键右侧:

对于 **ChromeOS** 键盘布局

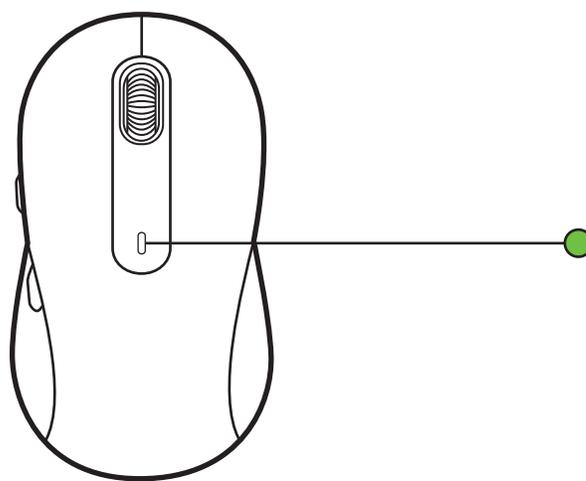

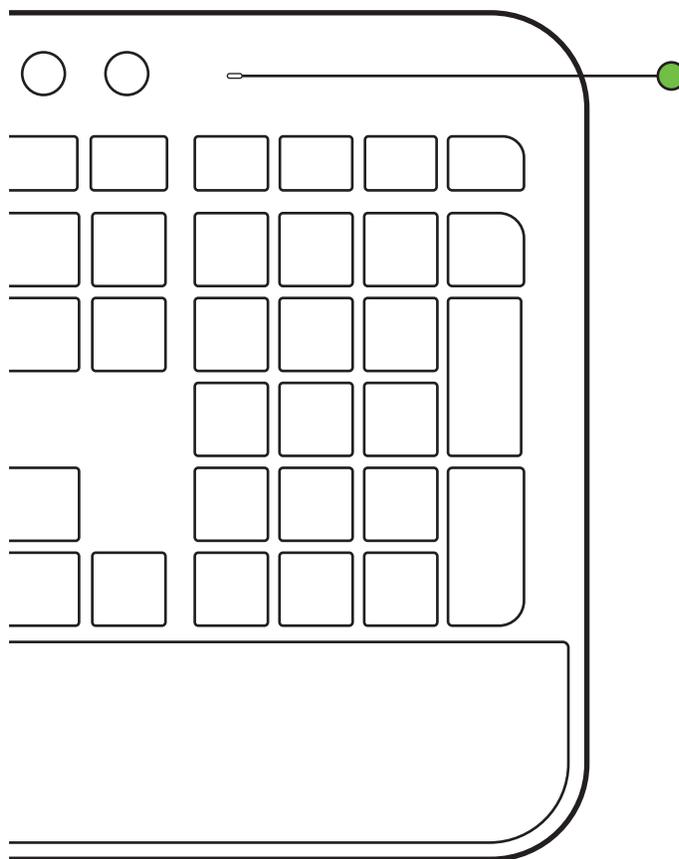

- 如果您是 **Chrome** 用户, 您会在开始键上方找到一个 **Chrome** 专用功能, 即**启动键**。连接键盘时, 请确保您已选择 **ChromeOS** 布局 (FN+C)。

注: 对于 ChromeOS 用户, 我们建议仅通过 BLE 连接您的设备。

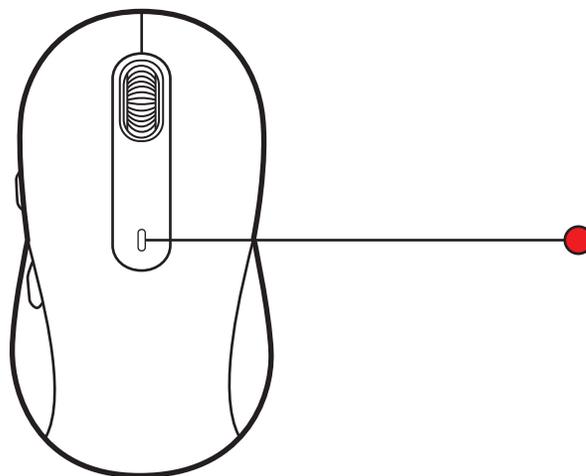

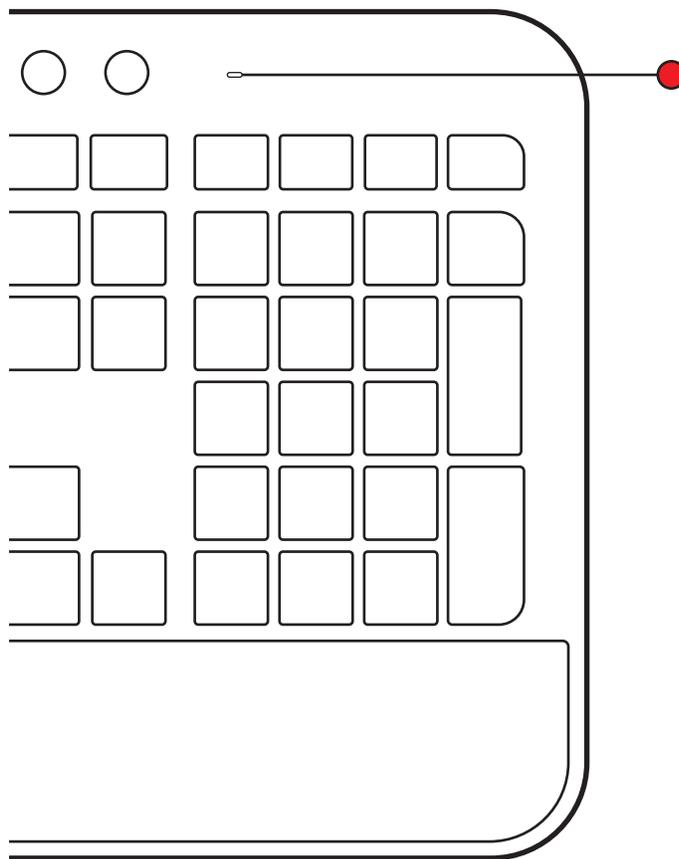

电池状态通知

1a. 当电池电量介于 6% 至 100% 之间时，LED 颜色将保持绿色。

1b.当电池电量低于**6% (5% 及更低)**时，LED 将变为**红色**。电量不足时，您仍可以继续使用设备最长一个月时间。

注： 电池使用时长依用户及计算条件而异
