

11 reasons why

You should unleash the power of Windows 11 with Logitech devices

Zone Wireless 2

Zone 305

Don't leave the upgrade incomplete

You've probably upgraded to Windows 11—don't stop there. A personal workspace upgrade from Logitech will complete the package.

Enterprise-grade security

Logitech wireless products employ the latest Bluetooth® standard (5.0 or above) with industry-standard security modes. Logi Bolt receiver is FIPS compliant and delivers a strong, fully encrypted wireless connection even in congested environments.

Designed for sustainability

Logitech is reducing the carbon footprint of our products, without compromising quality or performance. Three out of every four Logitech products use next-life plastics with more on the way.

Seamlessly add Copilot to your workflow

Microsoft Copilot is an AI-powered intelligent assistant that helps keep you focused on the task at hand. With Logi Tune, easily customize a key or mouse button to launch Microsoft Copilot if available on your device.

Global availability and Pro Support

Logitech devices are available globally and backed by a 2-year hardware warranty. Logitech Pro Support also offers access to technical support at a global scale for IT peace of mind.

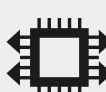

Remote management

With Logitech Sync, IT can monitor devices and deploy firmware and security patches en masse to large groups of devices across the enterprise.

Device customization

With Logi Tune, easily adjust webcam and headset settings for optimal appearance and sound quality. Additionally, Logi Options+ extends customizations for keyboards and mice. Both software are fully compatible with Windows 11.

Make the most out of your Logitech products

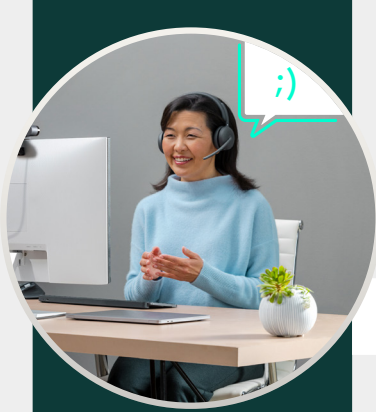

Logitech makes it effortless to elevate your Windows 11 experience. Our products are designed to work seamlessly with Windows 11, ensuring smooth performance, enhanced productivity, and compatibility with the latest security and system updates.

Do more with Windows 11

You've upgraded to Windows 11. Don't settle for an inferior experience. Upgraded software deserves compatible business-ready devices!

With millions of customers worldwide, Logitech is the Windows 11 choice you can trust.

IT teams will love it

Logitech mice, keyboards, webcams, headsets, presenters, and speakers are fully Windows 11 compatible. Users know and love us, which means less support calls to the IT desk.

Certified for Microsoft Teams
