For over 40 years, Logitech has been developing tools that enhance performance, simplify processes, and transform teamwork.

Fueling public service innovation and impact

Rooted in exceptional design, Logitech solutions help government organizations boost productivity, streamline workflows, and modernize collaboration. From flex desks to large conference rooms, our intuitive tools enhance communication, maximize efficiency, and transform government workspaces into innovative hubs that better support public service needs.

This Logitech Solutions Guide for Government is centered on four pillars fueling public service innovation and impact:

- **Security** built for missions worldwide.
- **Productivity** empowered by intelligent design.
- **Modernization** made manageable.
- **Trust** rooted in four decades of innovation.

Beyond these strategic foundations, this guide provides practical examples of workplace technology in action. Whether your agency is managing a physical footprint or a hybrid workforce, these insights will help you deploy technology that works as hard as the people it supports.

Microsoft Teams Rooms on Windows is listed on the Department of Defense Information Network (DoDIN) Approved Products List (APL). This approval enables some Microsoft-certified Logitech solutions for Teams Rooms to be deployed in secure DoD environments.

 Certified for
Microsoft Teams

Security built for missions worldwide

In public service, keeping tools and information safe isn't optional—it's essential. That's why we engineer every solution with security as the foundation, not an afterthought.

Our [TAA and NDA-compliant video collaboration](#) tools, encrypted wireless devices, and transparent supply chain processes ensure your teams can focus on serving citizens without worrying about vulnerabilities.

Logitech solutions are engineered to work seamlessly with leading secure collaboration platforms—including Microsoft Teams, Zoom, and Google Meet. When paired with platforms offering end-to-end encryption and role-based access controls, Logitech devices make it easy for government teams to collaborate confidently and securely.

Our commitment extends beyond compliance checkboxes—we're actively involved in the [U.S. Cyber Trust Mark Initiative](#), continuously advancing IoT security standards to keep government workspaces safe and mission-critical operations secure.

Productivity empowered by intelligent design

From ergonomic tools to AI-powered features—help government teams work faster, smarter, and more comfortably across workspaces

Serving your community starts with technology you can count on—reliable, ready, and designed for every day. Our solutions blend ergonomic comfort with performance-driven innovation, supporting public servants to accomplish more with less effort. Developed to meet criteria set by leading ergonomists, [Logitech Ergo](#) products help improve posture, reduce muscle strain, and increase day-to-day comfort.

When collaboration counts, our built-in AI-powered features step in to simplify meetings and operations.

With intelligent automation—like smart camera framing and noise suppression—Logitech solutions help make every interaction clearer and more effective, no matter where your teams are connecting.

Add multi-device compatibility and scalable designs that reduce IT headaches and adapt to dynamic government needs, and you get technology built to work as hard as the people it supports. Whether teams are modernizing facilities, working flexibly, or serving citizens across locations, Logitech helps governments make a lasting impact.

Modernization made manageable

Scalable collaboration technology that grows with your department's needs—while simplifying IT management

We understand that modernizing government workspaces requires more than just new technology—it demands solutions that adapt to evolving workforce needs while maintaining security and reliability. Scalable solutions from Logitech help you transform how your agency works, connects, and serves your community. For example, our [TAA-compliant Rally family of video conferencing solutions](#) grows with your organization, from single conference rooms to entire building complexes to dispersed workforce scenarios, while built-in AI-powered features simplify and enhance collaboration.

Our solutions include flexible workspace configurations that support hoteling and hybrid work models, as well as productivity tools that integrate seamlessly with emerging AI platforms. With centralized device management capabilities streamlining IT operations, your teams can focus on mission-critical work while we handle the complexity of modern collaboration technology.

Trust rooted in four decades of innovation

Proven reliability, global service, and sustainable practices governments can depend on for mission-critical operations

When governments need technology they can rely on, they turn to Logitech. For over 40 years, we've earned the trust of central and local government organizations through unwavering commitment to security, compliance, and performance. Trusted by government agencies, departments, and municipalities worldwide, and 71% of the Global 500, we deliver mission-critical solutions through transparent supply chains, rigorous quality standards, and comprehensive support networks.

At Logitech, our dedication drives action. We embed prioritized carbon reductions in our products and lead with responsible AI commitments, because trust is earned through accountability at every level. Backed by globally recognized compliance and certifications, and streamlined procurement, our solutions help government teams deliver real, lasting impact for the citizens they serve.

Government workplace technology in action

Whether your focus is improving productivity, streamlining collaboration, or supporting citizen engagement, Logitech can help your organization tackle today's challenges and seize tomorrow's opportunities.

Discover how government teams are meeting mission needs—one workspace, meeting, and interaction at a time.

Government work gets personal

Personal workspace tools that work as hard as you do

Government work demands precision, comfort, and reliability throughout long days of critical tasks. Our personal workspace tools are designed for the demands of public service.

Whether you're analyzing budget data, preparing policy documents, or managing citizen services, our keyboards, mice, headsets, webcams, and other personal productivity tools support seamless communication and quick transitions between desktop and mobile work, while our rugged folio cases protect devices in the field. These aren't just peripherals—they're purpose-built solutions that help public servants work more comfortably, respond faster to citizen needs, and maintain the precision that government work requires every day.

Elevate personal workspace productivity

Examples of personal productivity scenarios

- Individual workstation collaboration and virtual briefings
- Document review and analysis
- Data entry and reporting

MK120 CORDED KEYBOARD AND MOUSE COMBO

Full-sized keyboard and mouse that deliver a familiar, easy-to-use design that works right out of the box. Just plug in this corded combo via USB and go.

H390 USB HEADSET

Wired headset that delivers crisp, clear audio with a simple USB connection and a noise-canceling mic. Inline controls to adjust volume or mute without interrupting calls. Fine-tuned drivers for enhanced digital audio.

C920E BUSINESS WEBCAM

Work-from-anywhere HD 1080p webcam that surpasses the video and sound quality provided by most laptops. Step up to professional-quality video collaboration at a price point ideal for deployment at scale.

LIFT MOUSE

Designed to raise the hand into a comfortable position and support a more natural posture. Provides all day comfort—a great fit for small to medium hands, with a left-handed option available too.

Every case deserves your best work

Examples of case management scenarios

- Virtual health consultations and remote appointments
- Case file review and documentation
- Client interviews and confidential conversations
- Multi-department case coordination

SIGNATURE SLIM COMBO MK955 FOR BUSINESS

Wireless keyboard/mouse combo with laptop-style typing, super-fast scrolling, and multi-device switching.

ZONE 305 WIRELESS HEADSET

Lightweight wireless headset ideal for employees who need great audio and a reliable long-range connection for uninterrupted calls. Dual noise-canceling mics are positioned on the adjustable boom for better voice capture.

BRIO 505

1080p plug-and-play webcam certified by major video platforms including Microsoft Teams, Google Meet, and Zoom. An integrated, easy-to-use privacy shutter completely blocks the camera when users don't wish to be seen.

WAVE KEYS

Ergonomic keyboard provides all-day comfort, featuring a wave design and cushioned palm rest that's easy to use and promotes natural typing posture.

H570E WIRED HEADSET

Business-ready, lightweight, wired headset with noise-canceling mic that is available in two versions—a Microsoft Teams-certified version with full Teams functionality, and a UC version that’s certified for Works With Chromebook (WWCB) and compatible with Cisco for audio.

ZONE VIBE WIRELESS HEADSET

Made for today’s workforce with a stylish lightweight design for all-day comfort. Equipped with dual noise-canceling mics, it provides excellent audio quality. Plus multipoint *Bluetooth* allows seamless switching between two active devices.

SIGNATURE MK650 COMBO FOR BUSINESS

Mouse and keyboard combo designed for all day comfort. The keyboard’s integrated palm rest and familiar keystrokes complement the soft thumb area and rubber side grips of the mouse, helping to make working hours feel less like work.

ERGO M575

Minimize movement and maximize comfort with the Logitech ERGO M575, a wireless trackball mouse with a sculpted shape and smooth, responsive thumb control.

C930E BUSINESS WEBCAM

Advanced HD 1080p webcam that delivers high-resolution video in virtually any environment, including low-light and harshly backlit settings. H.264 video compression and a generously wide 90° field of view help make C930e the next best thing to being there in person.

Every call counts, every voice matters

Examples of call center scenarios

- Emergency services and dispatch operations
- Benefits and social services helplines
- Citizen services and information lines
- Emergency response services

Public service on the move

Examples of field and on-the-go use scenarios

- Disaster response and emergency field operations
- Regulatory inspections and compliance field work
- Community outreach and mobile service delivery

RUGGED FOLIO

Logitech's most protective iPad keyboard case with drop protection that exceeds military standard tests.

COMBO TOUCH

Backlit detachable keyboard case with trackpad for iPad Pro, iPad Air, or iPad. A detachable keyboard and adjustable kickstand enable multiple use modes for maximum flexibility.

CRAYON

Versatile, pixel-precise digital pencil for iPads (2018 and later) that boosts productivity and lets you get creative. Mark up PDFs, take handwritten notes, or sketch diagrams.

Team Workspace Solutions

logitech®

Collaboration without boundaries

Connecting teams to deliver seamless public service

Government work transcends traditional office walls—from multi-agency or department coordination to international operations serving citizens worldwide. Our collaboration tools are built for this reality.

Logitech team workspace solutions eliminate geographic barriers, enabling government teams to coordinate seamlessly across buildings, time zones, and borders—ensuring spaces are equipped for effective public service while maintaining focus on delivering impactful community outcomes.

Mission-critical connections

Examples of staff collaboration scenarios

- Cross-organization policy development
- Emergency response coordination
- Budget planning and resource allocation

RALLY BAR

Premium video bar for medium to large meeting rooms. Discover remarkably simple, all-in-one video conferencing with built-in AI technology features, brilliant optics, and powerful audio.

RALLY BAR MINI

Raise the bar for video meetings in small to medium rooms. Rally Bar Mini is remarkably simple to deploy, use, and manage remotely.

TAP

Makes video meetings simple to join with a USB-connected touch controller with included Cat5e Kit for flexible cabling. Deliver one-touch join, calendar integration, easy content-sharing, and a consistent experience across Microsoft Teams, Zoom, or Google Meet rooms.

MEETUP

Create plug-and-play video conferencing with MeetUp, an all-in-one USB conference camera for small rooms and spaces. MeetUp packs big features and unbeatable value in a compact form factor that is simple to set up and easy to install.

MEETUP 2

AI-powered USB conference camera for small spaces that simplifies the meeting experience for employees and IT. It brings a simple setup, selection of AI-enabled audio and video features, and easy management to USB-based deployments with a PC or in BYOD mode.

SCRIBE

Effortlessly share whiteboards into video meetings with Logitech Scribe, an AI-powered whiteboard camera for Microsoft Teams Rooms, Zoom Rooms, Google Meet Rooms, and other leading video conferencing services.

Precision for every proceeding

Examples of judicial and legal scenarios

- Remote and hybrid court proceedings
- Case research and legal document preparation and review
- Judicial conference and case collaboration

RALLY BAR

Premier video bar for medium to large courtrooms and meeting rooms. Discover remarkably simple, all-in-one video conferencing with built-in AI technology, brilliant optics, and powerful audio.

BRIO 505

1080p plug-and-play webcam with automatic light correction, AI-based face image correction and dual noise reducing mics. An integrated, easy-to-use privacy shutter completely blocks the camera when users don't wish to be seen.

RALLY CAMERA

Delivers premium performance in courtrooms and meeting spaces. With whisper-quiet mechanical Pan/Tilt/Zoom, razor-sharp 15X HD zoom, expansive 90° diagonal field of view, powerful 4K sensor, and flexible mounting options, Rally Camera captures every person in the room with truly phenomenal video quality.

H650E WIRED HEADSET

Enjoy USB plug-and-play connectivity using a flat, no-tangle cable. H650e delivers clear audio with features such as acoustic echo cancellation and a noise-canceling mic.

REACH

Flexible, intuitive camera that lets you share physical content such as evidence or documents. Captures content in up to HD 1080p/60fps and 4.3x lossless zoom with a premium glass lens, smart auto-focus system, and intelligent exposure.

See how judicial technology is transforming court operations and collaboration.

Secure collaboration when it matters most

Examples of secure collaboration scenarios

- Intelligence analysis and national security briefings
- Inter-agency or inter-department investigations and law enforcement coordination
- Cyber security incident response and digital forensics

RALLY BAR, NO RADIO

Designed for Radio Frequency (RF)-restricted government environments. Video bar for medium to large classrooms and meeting rooms maintains all Rally Bar features without built-in *Bluetooth*.

RALLY BAR, NO RADIO ROOM KIT

Designed for Radio Frequency (RF)-restricted government environments. Delivers the complete Rally Bar experience without wireless radio components. The kit includes Rally Bar No-Radio, Tap Cat5e Controller, and two Mic Pods.

MEETUP

Create plug-and-play video conferencing with MeetUp, an all-in-one USB conference camera for small rooms and spaces. MeetUp packs big features and unbeatable value in a compact form factor that is simple to set up and easy to install.

C920E BUSINESS WEBCAM, MIC DISABLED

Work-from-anywhere HD 1080p webcam with mic disabled. Video quality surpasses the video provided by most laptop cameras. Step up to professional-quality video collaboration at a price point ideal for deployment at scale.

Space Management Solutions

logitech®

Smart space management

Flexible workspace solutions help maximize facility footprints

Government agencies face growing pressure to optimize facilities and maintain service excellence. Our space management solutions help you do both.

Logitech space management solutions work in tandem with your existing subscription or space management platforms to provide valuable insights and analytics. By leveraging these data-driven platforms, you can make informed decisions about how spaces are used, helping to reduce real estate costs while improving employee productivity. When your spaces work harder, your teams can focus entirely on what matters most—delivering exceptional citizen services.

Explore our room configurator to design your workspace with tailored, guided selections for your needs.

[LEARN MORE](#)

Right-size every room, right-time every meeting

Examples of space utilization scenarios

- Flexible desks and shared workstations
- Multi-purpose conference room utilization
- Temporary command centers and pop-up workspaces

SPOT

Modern-day sensing device that can be easily deployed throughout the office to enable smarter workspace automations, and to gather insights on room utilization, health, and energy.

TAP SCHEDULER

Tap Scheduler makes it easy to see meeting details and reserve a room for ad hoc or future meetings. Easily deploy as a purpose-built scheduling panel for leading room scheduling solutions to help workers find and claim the right space.

Technology Management Solutions

logitech®

Services that simplify government IT operations

Proactive device management and predictive support help reduce IT workloads while maximizing technology investments across government operations

Government IT departments face mounting pressure to do more with less while maintaining security and reliability. Logitech Select transforms this challenge into opportunity by providing comprehensive device management, proactive support, and extended warranties that can dramatically help reduce total cost of ownership. Our predictive analytics identify potential issues before they disrupt operations, while automated updates and centralized monitoring minimize hands-on IT intervention.

Select's proactive approach means fewer help desk calls, reduced downtime, and streamlined device lifecycle management across your entire organization. When your technology operates reliably with minimal maintenance required, your IT teams can focus on strategic initiatives that drive modernization. Smart service management isn't just about cost savings—it's about creating reliable technology environments that help government teams serve communities without interruption.

Simplify the buying experience with expert guidance and tailored solutions—from contract to deployment.

FIND A RESELLER

Partnerships that power public service

Access certified partners with deep government procurement expertise to help streamline acquisition processes and deliver comprehensive support from contract to deployment

Government procurement demands specialized expertise, compliance knowledge, and reliable support networks. Our global ecosystem of partners understands the unique challenges of government contracting—from cooperative purchasing agreements to complex RFP requirements and security compliance standards. They provide localized support, streamlined procurement processes, and deep expertise in acquisition procedures.

Our partners don't just sell products—they deliver comprehensive solutions tailored to government workflows, budgets, and timelines. From initial needs assessments through deployment and ongoing support, authorized Logitech resellers and integrators offer government agencies the specialized service and expertise they deserve.

Empowering public service with proven performance

Trusted technology solutions that help government teams serve citizens more effectively

With a comprehensive portfolio of collaboration tools, personal productivity devices, and space management solutions, Logitech helps government teams work smarter, connect more clearly, and respond faster to community needs. Trusted by governments around the world, our enterprise-grade solutions are designed to help you get the most from every investment—empowering seamless collaboration for public service that keeps pace with the dynamic landscape of government today.
