

# Collaboration Made Simple

9 reasons to choose Logitech solutions  
for Microsoft Teams Rooms

Certified for  
Microsoft Teams

## Certified for Microsoft Teams

Logitech solutions are purpose-built to integrate seamlessly with Microsoft Teams, delivering consistent, intuitive, and reliable user experiences across various spaces, anytime and anywhere.

### All people, all spaces

From entry-level rooms to boardrooms, Logitech’s versatile portfolio delivers a consistent, high-quality experience — scalable and modular to fit any space without compromise.

Tap Scheduler

## Smarter meetings with Copilot

Logitech solutions supercharge Microsoft Copilot — transforming conversations into real-time insights, actions, and next steps. Together, we bring intelligent collaboration to every meeting space with unmatched AI-powered audio and video clarity.

## AI-powered devices

Inclusive meetings by design. AI-driven video and audio from Logitech, combined with Microsoft Teams features like IntelliFrame and Front Row, ensure every voice is heard and every face is seen, no matter where participants are.

Logi Dock Flex

## Global availability and Pro Support

Standardize worldwide with Logitech solutions — backed by global services, up to 5-year warranties, and dedicated support for seamless deployment and peace of mind.
