

logitech®

Built for how students learn

Every classroom has distinct learning moments.
Each one needs the right tech solutions.

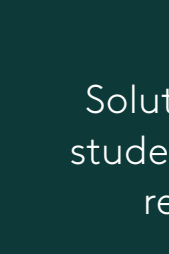

91%

of educators expect their edtech purchases to increase student **engagement and participation**.¹

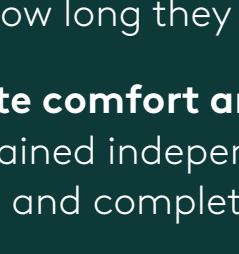

For that to happen, they need solutions that enhance three different kinds of learning.

1

Individual Learning Time

2

Small Group Work

3

Whole Class Instruction

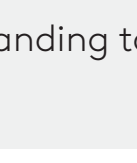

1

Individual learning time

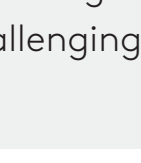

When students work alone, the tools and environment determine how long they stay on task.

Solutions that **create comfort and boost focus** help students during sustained independent work, including reading, writing, and completing assessments.

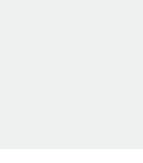

6-10 MIN

is the typical **sustained-focus window** for K-5 learners on demanding tasks.²

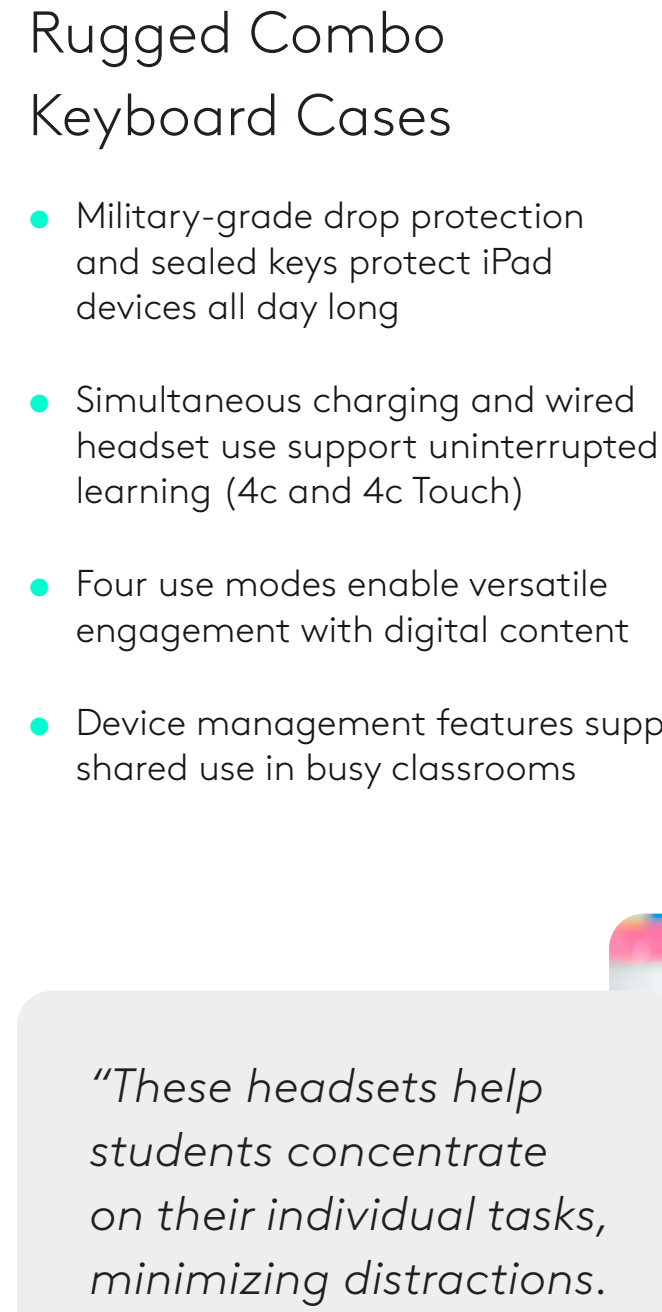

60%

of educators say **hardware is just as important as software** for improving attention on challenging tasks.³

92%

of students felt it was **easier to focus** on schoolwork with a Logitech headset.⁴

Rugged Combo Keyboard Cases

- Military-grade drop protection and sealed keys protect iPad devices all day long
- Simultaneous charging and wired headset use support uninterrupted learning (4c and 4c Touch)
- Four use modes enable versatile engagement with digital content
- Device management features support shared use in busy classrooms

Zone Learn Wired Headset

- Earpads and cables are easily replaceable, so students never have to wait on repairs
- Audio drivers tuned for voice clarity rather than music
- Comfortable, adjustable fit made for smaller heads
- Plug-and-play across devices and platforms

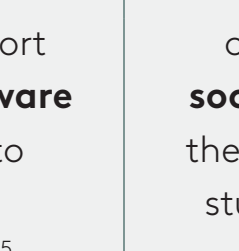

“These headsets help students concentrate on their individual tasks, minimizing distractions. The noise suppression is incredible.”

— **CHANDANA MOHITE**

COPPELL INDEPENDENT SCHOOL DISTRICT

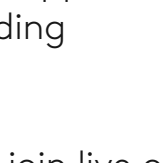

2

Small group work

Collaboration and creation works when every student can be seen, be heard, and contribute.

Clear video, clear audio, and seamless content creation solutions help small groups collaborate with ease and flexibility.

56%

of educators report **significant hardware integration** into collaborative learning tasks.⁵

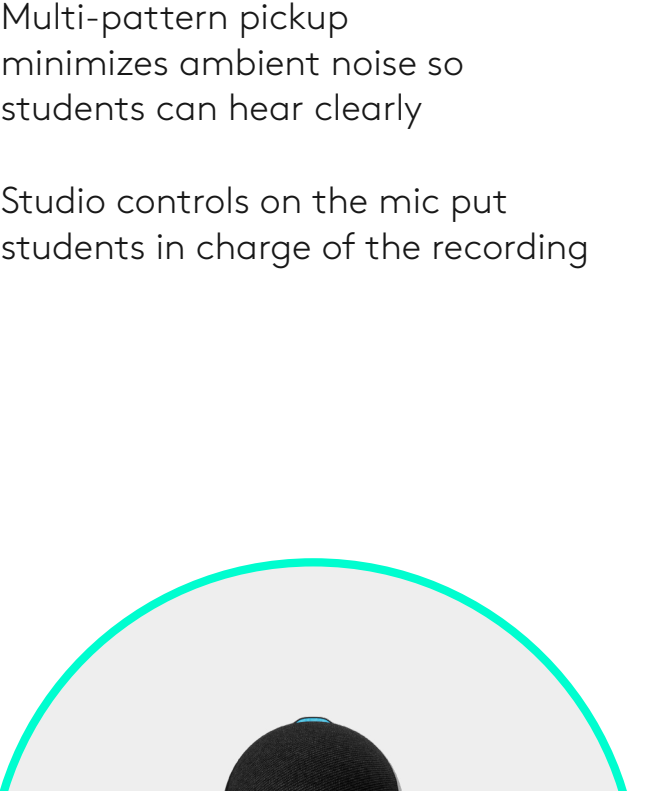

61%

of educators say **social interaction** is the #1 factor shaping student attention.⁶

Yeti Orb Microphone

- USB condenser microphone delivers professional-grade sound for content creation projects
- Customizable lighting helps signal active recording status, useful for shared classroom or media production spaces
- Blue VOICE presets enhance audio clarity for student media projects

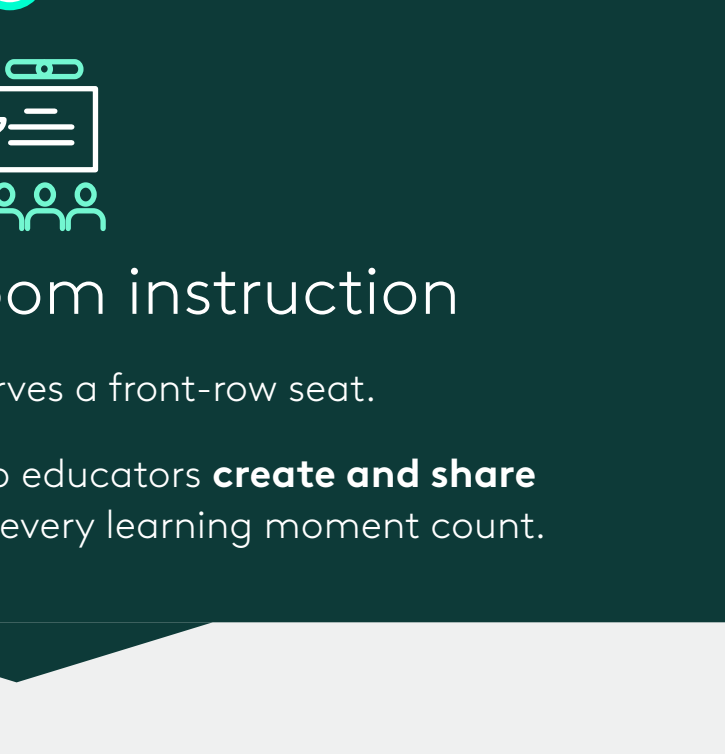

Yeti USB Microphone

- Broadcast-quality group audio for group presentations or discussions
- Multi-pattern pickup minimizes ambient noise so students can hear clearly
- Studio controls on the mic put students in charge of the recording

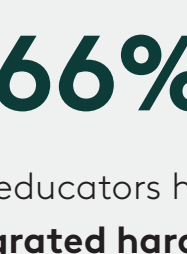

“Many students immediately were taken with the opportunity to use such professional-looking equipment...they supported each other with the settings and controls.”

— **SABRINA MCDANIEL**

6TH GRADE TEACHER, LEDESMA ELEMENTARY SCHOOL

3

Whole classroom instruction

Every student deserves a front-row seat.

Well-designed solutions help educators **create and share engaging content** to make every learning moment count.

66%

of educators have **integrated hardware** into direct instruction.⁷

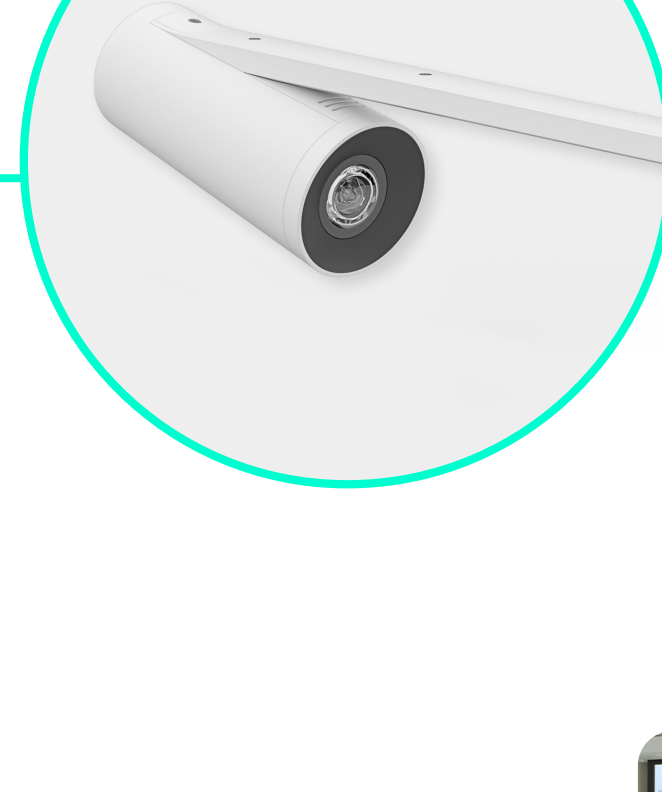

Spotlight 2 Presentation Remote

- Digital highlighting keeps lessons interactive and students attentive
- Haptic feedback for confident presentations
- Customizable action button lets presenters drive learning their way
- Lasts 3 months on a single charge

Reach Adjustable Content Camera

- Articulating 360° camera brings non-digital content to every learner
- Intuitive, fluid movement for dynamic lessons
- Portable and versatile to fit any space

Scribe Whiteboard Camera

- AI-powered whiteboard camera brings the classroom whiteboard into video lessons with outstanding clarity
- Presenter removal and content enhancement keep whiteboard text and sketches easy to read
- Wireless share button makes sharing seamless
- Clean wall-mounted design keeps installs out of the way

“Being mobile in the classroom and being able to move through materials on the go helps engagement and adds proximity to discussions.”

— **JASON WHALLEY**

STEAM TEACHER, HORNER MIDDLE SCHOOL
