DATASHEET ZONE WIRELESS HEADSETS

Open workspaces are great for collaboration, but they can also be noisy. Take control of your acoustic environment with Logitech® Zone Wireless, the wireless headset specifically designed to enhance focus and productivity in busy workspaces.

Logitech Zone Wireless and Zone Wireless Plus help you define your workplace soundscape and get stuff done. Designed for talking and music, easily transition between video conferencing, music, and general noise reduction throughout your day. To make communication effortless, Zone Wireless is also equipped with a noise-canceling microphone, ensuring your voice is heard on the other end—not the noise around you.

Connect to a smartphone and computer simultaneously via *Bluetooth*[®]. Zone Wireless features simple controls for managing calls, music, and active noise cancellation (ANC) as well as a flip-to-mute mic and Qi wireless charging¹. Zone Wireless Plus gives you the ability to connect up to six Logitech Unifying wireless peripherals through a single USB Unifying + Audio receiver.

Whether for collaboration, communication or concentration, Zone Wireless headsets are made for every work mode with consistent and reliable quality.

KEY FEATURES AND PRODUCT SPECIFICATIONS

Great for open workspaces: Immersive, high-definition sound to listen to music, noise-canceling mic to isolate your voice, and active noise cancellation (ANC) to reduce unwanted ambient sound.

Convenient controls: Easy access to on ear controls to adjust volume, play/pause music, and start/end calls. Plus flip-to-mute mic and Qi charging¹enabled.

Simple connect to multiple devices: Seamlessly switch between smartphone and computer. Connect additional Unifying peripherals with Zone Plus receiver.
