Module: Introduction

Page: Introduction

0.1
Introduction
Please give a general description and introduction to your organization

Logitech International S.A. engages in design, manufacture, and marketing of peripherals for computing platforms, products for digital music and the digital home, and video conferencing systems. The company sells its products in Europe, the Middle East, Africa, the Americas, and Asia Pacific. Logitech offers mice, trackballs, keyboards, keyboard cases, gaming controllers, speakers, webcams, headphones, earphones, custom in-ear monitors, remote controls, video security systems and video conferencing solutions. The company sells its products to a network of distributors and resellers, including wholesale distributors, consumer electronics retailers, mass merchandisers, specialty electronics stores, computer and telecommunications stores, value-added resellers, and online merchants; and original equipment manufacturers. Logitech International S.A. was founded in 1981 and is incorporated in Apples, Switzerland.

0.2
Reporting Year
Please state the start and end date of the year for which you are reporting data.
The current reporting year is the latest/most recent 12-month period for which data is reported. Enter the dates of this year first.
We request data for more than one reporting period for some emission accounting questions. Please provide data for the three years prior to the current reporting year if you have not provided this information before, or if this is the first time you have answered a CDP information request. (This does not apply if you have been offered and selected the option of answering the shorter questionnaire). If you are going to provide additional years of data, please give the dates of those reporting periods here. Work backwards from the most recent reporting year.
Please enter dates in following format: day(DD)/month(MM)/year(YYYY) (i.e. 31/01/2001).

Enter Periods that will be disclosed
Fri 01 Jan 2010 - Fri 31 Dec 2010

0.3
Country list configuration

Please select the countries for which you will be supplying data. This selection will be carried forward to assist you in completing your response

Select country
China

0.4
Currency selection

Please select the currency in which you would like to submit your response. All financial information contained in the response should be in this currency.

USD($)

0.5
Please select if you wish to complete a shorter information request

0.6
Modules
As part of the Investor CDP information request, electric utilities, companies with electric utility activities or assets, companies in the automobile or auto component manufacture sectors and companies in the oil and gas industry should complete supplementary questions in addition to the main questionnaire.
If you are in these sectors (according to the Global Industry Classification Standard (GICS)), the corresponding sector modules will be marked as default options to your information request. If you want to query your classification, please email respond@cdproject.net. If you have not been presented with a sector module that you consider would be appropriate for your company to answer, please select the module below. If you wish to view the questions first, please see https://www.cdproject.net/en-US/Programmes/Pages/More-questionnaires.aspx.

Further Information

CDP reporting in prior years was based upon Fiscal Year (April 1 to Mar 31). However, from this year, Logitech intends to report to CDP on a Calendar Year basis commencing covering the period January 1st 2010 to December 31st 2010.

Calendar year 2010 is the baseline year for our target improvement plans and this will also align our CDP reporting with the Logitech GRI based Corporate Social Responsibility Report due for publication in 2012.

Module: Management

Page: 1. Governance

1.1 Where is the highest level of direct responsibility for climate change within your company?

Senior Manager/Officer

1.1a Please identify the position of the individual or name of the committee with this responsibility

Chief Operations Officer as owner of WW Compliance & Environmental Organisation and lead participant in Logitech's Social & Environmental Responsibility (SER) Steering Committee

1.2 Do you provide incentives for the management of climate change issues, including the attainment of targets?

No

Page: 2. Strategy

2.1 Please select the option that best describes your risk management procedures with regard to climate change risks and opportunities

There are no documented processes for assessing and managing risks and opportunities from climate change.

2.2 Is climate change integrated into your business strategy?

Yes

2.2a Please describe the process and outcomes (see guidance)

Manufacturing site targets have been established to reduce the levels of indirect GHG emissions during the manufacturing process.

Opportunities to reduce fuel, and resulting GHG emissions, through supply chain optimisation have been identified and are pursued on an ongoing basis.

Further increases in climate change awareness are evident in the supply chain where an increasing number of suppliers are now certifying to ISO14001.

Existing and newer products will continue to be designed to be more energy efficient in their operation.

Logitech has also increased our level of auditing on these Suppliers’ Environmental Management Systems.
2.3 Do you engage with policy makers to encourage further action on mitigation and/or adaptation?

No

Page: 3. Targets and Initiatives

3.1 Did you have an emissions reduction target that was active (ongoing or reached completion) in the reporting year?

No

3.1e Please explain (i) why not; and (ii) forecast how your emissions will change over the next five years

Calendar Year 2010 has been established as a baseline year for emissions data.

A target of 10% reduction in absolute indirect GHG emissions is expected by 2016.

The reduction plan has commenced in 2011 and next year’s CDP report will provide progress towards the overall 10% target.

Interim progress reports can also be found on [www.logitech.com](http://www.logitech.com) as part of our GRI based Corporate Social Responsibility report.

3.2 Does the use of your goods and/or services directly enable GHG emissions to be avoided by a third party?

No

3.3 Did you have emissions reduction initiatives that were active within the reporting year (this can include those in the planning and/or implementation phases)

Yes

3.3a Please identify the total number of projects at each stage of development, and for those in the implementation stages, estimated CO2e savings

<table>
<thead>
<tr>
<th>Stage of development</th>
<th>Number of projects</th>
<th>Total estimated annual CO2e savings (only for rows marked *)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Under investigation</td>
<td></td>
<td></td>

### Module: Risks and Opportunities

#### 5.1
Have you identified any climate change risks (current or future) that have potential to generate a substantive change in your business operations, revenue or expenditure? Tick all that apply

- Risks driven by changes in regulation
- Risks driven by changes in physical climate parameters

#### 5.1a
Please describe your risks driven by changes in regulation

<table>
<thead>
<tr>
<th>ID</th>
<th>Risk driver</th>
<th>Description</th>
<th>Potential impact</th>
<th>Timeframe</th>
<th>Direct/Indirect</th>
<th>Likelihood</th>
<th>Magnitude of impact</th>
</tr>
</thead>
</table>

https://www.cdp.net/Sites/2012/34/10834/Investor%20CDP%202012/Pages/DisclosureView.aspx
5.1b
Please describe (i) the potential financial implications of the risk before taking action; (ii) the methods you are using to manage this risk; and (iii) the costs associated with these actions

Logitech is designing more energy efficient products which, in the case of several of our battery powered products, make more use of a single charge and require less recharging per usage which ultimately reduces energy costs for the consumer. Logitech has also introduced a range of solar powered products.

5.1c
Please describe your risks that are driven by change in physical climate parameters

<table>
<thead>
<tr>
<th>ID</th>
<th>Risk driver</th>
<th>Description</th>
<th>Potential impact</th>
<th>Timeframe</th>
<th>Direct/Indirect</th>
<th>Likelihood</th>
<th>Magnitude of impact</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>Other physical climate drivers</td>
<td>Operations activities could be impacted by extreme weather conditions which may interrupt business activities and consequently could result in increased costs and expenses, which may negatively impact revenue.</td>
<td>Increased operational cost</td>
<td>Unknown</td>
<td>Indirect (Supply chain)</td>
<td>Unknown</td>
<td>Unknown</td>
</tr>
</tbody>
</table>

5.1d
Please describe (i) the potential financial implications of the risk before taking action; (ii) the methods you are using to manage this risk; and (iii) the costs associated with these actions

Logitech is focusing its activities on implementing efficiencies in resource usage by focusing on reducing the amount of packaging material used, bringing efficiencies in freight utilization via packaging weight reduction and improved volume utilization which combine to reduce the amount of fuel used in transportation of goods.

5.1i
Please explain why you do not consider your company to be exposed to risks driven by changes in other climate-related developments that have the potential to generate a substantive change in your business operations, revenue or expenditure

Page: 2012-Investor-Risks&Opps-ClimateChangeOpp

6.1
Have you identified any climate change opportunities (current or future) that have the potential to generate a substantive change in your business operations, revenue or expenditure? Tick all that apply

Opportunities driven by changes in other climate-related developments

6.1e
Please describe the opportunities that are driven by changes in other climate-related developments
### Table

<table>
<thead>
<tr>
<th>ID</th>

</tr>
</thead>
</table>

11. Emissions Scope 2 Contractual

11.1 Do you consider that the grid average factors used to report Scope 2 emissions in Question 8.3 reflect the contractual arrangements you have with electricity suppliers?

Yes

11.2 Has your organization retired any certificates, e.g. Renewable Energy Certificates, associated with zero or low carbon electricity within the reporting year or has this been done on your behalf?

No

12. Energy

12.1 What percentage of your total operational spend in the reporting year was on energy?

12.2 Please state how much fuel, electricity, heat, steam, and cooling in MWh your organization has consumed during the reporting year

<table>
<thead>
<tr>
<th>Energy type</th>
<th>MWh</th>
</tr>
</thead>
<tbody>
<tr>
<td>Fuel</td>
<td>1598.55</td>
</tr>
<tr>
<td>Electricity</td>
<td>12211.14</td>
</tr>
<tr>
<td>Heat</td>
<td></td>
</tr>
<tr>
<td>Steam</td>
<td></td>
</tr>
<tr>
<td>Cooling</td>
<td></td>
</tr>
</tbody>
</table>

12.3 Please complete the table by breaking down the total "Fuel" figure entered above by fuel type

<table>
<thead>
