OVERVIEW

LOGITECH VIDEO COLLABORATION PORTFOLIO

ENHANCE COLLABORATION

A good meeting is more than just a perfect presentation. It’s about connecting with the people you’re engaging with.

Logitech® is transforming the way teams collaborate – opening up new possibilities and eliminating old boundaries with innovative, beautifully designed video collaboration solutions that are amazingly affordable, and fit every room shape or size.

The Logitech ConferenceCam lineup provides both razor sharp video and crystal clear audio – making any meeting place a video collaboration space. Logitech webcams enhance desktop collaboration with high quality HD video, while USB headsets deliver sound that’s crisp and clear.

Plus, Logitech Video Collaboration solutions are easy to deploy and use with any video conferencing software application – including the ones you already use.²

With forward-thinking vision, Logitech innovates continuously to bring together the latest advancements in technology with customer-centric design. Logitech RightSense™ proactive technologies enable a near effortless video meeting experience where everyone can be seen and heard.³ With Logitech RightSight™ camera control to frame in participants, Logitech RightLight™ optimization for more natural-looking faces, and Logitech RightSound™ voice leveling and noise suppression, video meetings are made better automatically.

No matter how or where you collaborate, video meetings are seamless.
According to Wainhouse Research survey data, people join video conferences from huddle rooms 40% of the time, more often than from any other location. These rooms have unique requirements for success, including a wide angle lens with pan and tilt to ensure everyone in the room is seen, and built-in audio to save space. Logitech huddle room solutions are optimized for these criteria, helping your business get the most out of these small spaces. Plus, Logitech ConferenceCams are compatible with familiar applications, offering an easy way to collaborate.
LOGITECH MEETUP

All-in-one ConferenceCam with 120° diagonal field of view, 4K optics and integrated audio. Perfect for huddle rooms.
AMR PART #960-001101

- See everyone, even those close to the camera

GROUP CABLE 15M
15 meter cable for installation in larger rooms.
AMR PART #939-001490
ENABLE EVERY ROOM.
ENABLE EVERY PERSON.
TEAMS COLLABORATION
MULTIPURPOSE ROOMS

Multipurpose rooms require a versatile camera that can adapt to different use cases, whether it’s as a classroom, a training room or an auditorium. Perfect for bigger spaces with a larger number of participants, Logitech PTZ Cameras can capture an entire space in detail, while still offering the ability to focus on details—like the presenter, panelists, whiteboards or individual participants. Whether it’s for a meeting, a seminar, or a presentation, Logitech USB cameras give participants the experience of sitting together in the same room, even if they are a thousand miles away.
MULTIPURPOSE ROOMS

LOGITECH RALLY CAMERA

Premium PTZ camera with Ultra-HD imaging and automatic camera control for boardroom-quality video.

**LOGITECH SMARTDOCK AV CONTROL CONSOLE**

AV control console for Microsoft Teams Rooms with one-touch join, streamlining video collaboration and desktop sharing.

AMR PART #960-001093

- Securely locks Microsoft Surface® Pro
- Adds connectivity without clutter including HDMI for dual 1080p displays, three USB ports, Gigabit Ethernet, and headset jack
- Simplifies content sharing with 1080p30 HDMI input and capture

**ACCESSORIES FOR SMARTDOCK**

**SMARTDOCK FLEX**

Recommended expansion kit that consolidates AV, USB and power to a single CAT6 cable, and adds AV Passthrough for easy guest access to the room’s display, camera, and speakerphone.

AMR PART #960-001213

- Deploy SmartDock up to 50ft (15m) away from the room’s AV equipment
- Adds an HDMI input for wired content sharing

*Strongly recommended for simplified setup

**SMARTDOCK EXTENDER BOX**

Basic expansion kit that consolidates cross-room cabling to a 5-in-1 proprietary cable (14mm diameter, not routable through standard conduit).

AMR PART #960-001095

- 16 ft (5m) cable is sufficient for smaller rooms
- Adds an HDMI input for wired content sharing

**LOGITECH SCREEN SHARE**

Bringing instant and easy content sharing to any conference room computer by simply connecting a laptop or tablet via HDMI.

AMR PART #939-001553

- Wired content sharing for conference room computers
- Share from any device with an HDMI-compatible output
- Works with most any meeting or webinar service
TAP INTO BETTER MEETINGS.
PERSONAL COLLABORATION

DESKTOP SOLUTIONS

Making a video call in personal space requires avoiding distractions and staying in control of what viewers can see. Logitech personal collaboration solutions can turn any desktop into an instant collaboration space. With a plug-and-play USB HD webcam and/or headset combination or a mobile hands-free speakerphone, face-to-face desktop collaboration is easy. Premium webcams include RightLight to optimize images for more natural light and color. And all audio solutions provide crystal clear audio with noise-cancelling technology to ensure you can hear and be heard whether you are in an open space or a private office.
