Logitech Profiler Software for PC

- **Customize button and force feedback functionality**
Every game is different, and so is every gamer. We know that. So we provide this versatile software that allows you to have things your way.
- **"Double" the number of buttons with the shift-button**
Are you a control freak? We are too. Enable the shift button functionality to turn all those buttons into twice as many.
- **Quickly switch between game controllers**
Fly your plane, drive your car, and then kick the ball around without being frustrated by controller configuration. Our software lets you easily manage and switch between your Logitech game controllers.
- **Includes profiles for hundreds of popular games**
We're quite sure that you know exactly how you want to set up your controller for your favorite games. But just in case, we've thrown in a few hundred of our favorite configurations.
- **Easily download new game profiles**
As if the profiles we ship with the controller weren't enough.
- **Print out profiles for quick reference**
We hate losing buttons. So we like to print out our game configurations for quick reference.
